

BOPP HIGH GLOSS LABEL

White high-gloss inkjet coated BOPP (biaxially oriented polypropylene) labels with water borne acrylic adhesive for permanent adhesion. Resistant to water and heat, these polypropylene labels can be used for smudge-proof, accurate and durable full colour printing.

Suggested applications

- High-gloss coating, ideal for high quality product labels for consumer products
- Durable, synthetic (polypropylene-based) labels
- Resistant to water and many other liquids
- Universal, permanent acrylic adhesive

MATERIAL	
Facestock	88g/m ² (113µm) premium coated inkjet paper with high-gloss finish
Adhesive	Acrylic based, permanent adhesive
Liner	51g/m ² (54µm) white kraft paper
Total calliper	186µm
TEMPERATURE RANGE	
Printing temperature	10 to 35°C
Printing humidity	20 to 80% RH (No condensation)
Minimum application temperature	5°C
Service temperature	-20 to 80°C
Storage (in original package)	Up to 1 year in dry and dark conditions at a constant temperature (20°C, RH 50%)
RECOMMENDED DRIVER SETTINGS	
Media Type	Glossy Label
Media Layout	Die-cut Label
Print Quality	Speed / Quality

Since all dyes, pigments and paper change over time, Epson does not warrant this product against colour changes and fading. Epson's liability for any defects in manufacturing and packaging is limited to the replacement cost of this product.

Best printing results achieved in a standard climate of 23°C and 50% relative humidity.
