

EPSON CoverPlus

Conditions

1. Definitions

In these conditions:

“Registration” is the process on the **EPSON** CoverPlus registration website by which, you input the activation number as purchased by (or otherwise provided to) you and enter into a contract with Epson for a particular Epson CoverPlus Service Product on these conditions.

The “Term” is the period beginning on the date the Product was purchased by the first end-user of the Product and continuing for the number of years specified in the Description. *It does not run from the purchase of an **EPSON** CoverPlus pack or activation code, nor from the end of the standard Commercial Warranty offered by Epson for the Product.* The Term may also include a maximum Print volume, in these cases the relevant CoverPlus pack is valid either up to the maximum Print volume or the number of years specified in the Description, whichever comes first.

The “Product” is the individual **EPSON** printer, scanner or other hardware item, of the model specified in the Description, whose serial number is given during Registration, or any replacement product supplied by Epson as part of the Service.

The “Service” is the service as described in the “CoverPlus Service Level guide” to be provided during the Term by Epson or its contractor. The service provided overrides and prevail over any standard warranty period or service level.

The “Description” is the statement of key elements of the Service (including the Term and the type of Service) to be provided under the particular **EPSON** CoverPlus Service Product selected at Registration.

“Epson” means the company within the Epson group of companies that originally supplied the **EPSON** CoverPlus pack or activation code number that you purchased. The identity of that company is as advised to you during Registration. A list of Epson companies and their address for any correspondence concerning **EPSON** CoverPlus is shown at the end of this document.

“**EPSON**” indicates the use of a registered trademark of Seiko Epson Corporation of Japan.

2. The Product for which CoverPlus Service is provided

During the Term, Epson or its contractor will provide the Service to you in connection with the Product. Service will be provided only for the Product and not for any other product.

3. When can the service be purchased

CP warranty extension packs unless stated otherwise need to be purchased and registered not more than 60 days from the date of the installation of the EPSON product the warranty is being registered too. CoverPlus packs terms and conditions apply from the install date of the product and override any commercial warranty offered on the product- All legal warranty conditions still apply.

4. The Service provided

The key elements of the type and level of service which Epson will provide as the Service are specified in the Description. More information about the type and level of service is contained in Appendix 1 "The CoverPlus service level guide". Subject to those specific key elements (which vary from one **EPSON** CoverPlus Service Product to another) the Service is as described in these conditions.

Where Service is provided this will involve, at Epson's sole discretion, the adjustment, repair or replacement of the Product.

Adjustments or Repairs will be made such that following the adjustment or repair the Product is providing satisfactory performance consistent with its age and usage. Replacement products may be refurbished units.

If a replacement product is provided, the unexpired part of the Term and our print volume is applied to the replacement product.

For certain CoverPlus Self Repair Service Products - as indicated in the CoverPlus Service Level Guide which should be checked before purchase – the following shall be mandatory in order to benefit:

- **an internet connection for Product**
- **registration to EPSON Cloud Solution PORT**
- **return to EPSON of replaced print head**
- **the undertaking of training by your selected service-personnel provided by Epson authorised reseller**

5. Obtaining Service

To request repair or replacement of your product under the Service, contact your local Epson helpdesk centre by phone. Before making any request you should have first performed the recommended self-checks as described in the Epson support website, www.epson.eu/support, which also contains details of the relevant Epson helpdesk centre you need to contact for the country in which the Product is situated.

CoverPlus Registration: Your CoverPlus pack needs to be registered to receive the service this can be done via www.epson.eu/support or ask to your Epson Authorised Partner. For certain CoverPlus Service Products - as indicated in the CoverPlus Service Level Guide - your CoverPlus pack also needs to be registered via EPSON Cloud Solution PORT.

6. Your Responsibilities

If the Service includes working on the Product while it is connected to any computing system, data storage or other equipment you must ensure, before you permit any work to begin, that you have backed up any records, information, files, operating or application software, data, or anything else on that system or equipment that could be affected if things go wrong (together "Data"). Epson only undertakes work as part of the Services on this basis.

This action by you is required to ensure that, if anything is deleted from or corrupted within your system or equipment as a direct or indirect result of Epson providing the Services, you (and/or the owners and users of the system or equipment) have the copies you need to replace them. The same action by you should be undertaken if you are undertaking self-repairs under certain CoverPlus Service Products.

7. Limits to the Standard CoverPlus

The Service will be provided only if the Product fails to operate in accordance with its specification. The **EPSON** CoverPlus contract and the Service do not cover:

- setting up the Product on site or providing product support
- routine maintenance, cleaning or replacing consumables (e.g. ink cartridges, lamps) as described in the Product's user manual
- calibration of other products which may be connected to or used with the Product and Epson does not accept responsibility for ensuring any particular performance when the Product is used with other equipment or software
- Replacing parts (other than parts specifically identified in the Description) which normally require replacing during the life of the Product or of any part which has (by reason of its level of use, wear and tear) reached the end of its normal useable life.

Some packs may include the above parts and maintenance services. This will be clearly indicated in the description of the pack purchased and a summary of the relevant services is provided in the CoverPlus Service Level Guide.

Services will not be provided if, in Epson's opinion, the problem is due to:

- Externally caused damage
- use outside specification (as defined by the product manufacturer, whose decision whether use is outside specification or not is final);
- accessories, parts or consumables which are not **EPSON** branded or Epson approved;
- modifications made to your product as originally supplied by Epson;
- drivers or other software supplied with the Product. Modifying or correcting these is subject to the license supplied with the software and is outside the scope of the Services;
- unauthorised or inexperienced repair or attempted repair;
- misuse, excessive or inappropriate use, or use in an adverse or abnormal environment; or
- non-Epson hardware used with the Product or application software used with the Product.

8. Requests outside Scope

EPSON CoverPlus Service is provided only for the Product. If another product (or a product from which the serial number has been removed or tampered with) is presented by you for repair or replacement, or if the fault has been misrepresented and is in fact one excluded from cover, no Service will be provided and Epson will charge you for any costs incurred. If these costs are not paid within 28 days, this agreement will terminate, and the Product will no longer be covered.

9. Personal Data

To register to Epson CoverPlus, Epson will ask you to provide your personal data, as name, surname, address, email address and telephone number (to check the data that Epson currently collects). These data are necessary to Epson in order to provide the Service as described in these terms.

With your consent, Epson may use your personal data to contact you with regard to your use of the Service, to conduct surveys regarding the Service and various Epson printer products and to send you advertisements from Epson. Epson provides means for you to opt out of receiving any commercial information from Epson. For more information, please find more information on www.epson.eu

10. Epson's Liabilities

If the Product is damaged as a direct result of Epson or its contractor providing the Services in a negligent way Epson will repair or replace it. If other property belonging to you is damaged as a direct result of negligence by Epson or its contractor, Epson will pay up to a maximum of €500,000 for the repair or replacement of that property with property of an equivalent age, condition and specification.

If as a result of negligence by Epson (or by its employees or contractors involved in providing the Service) Epson or its contractor causes any personal injury or death, Epson accepts liability for this.

If Data (as referred to in paragraph 5) on your system is affected as a direct result of Epson providing the service in a negligent manner, Epson will attempt to restore the affected Data to your system from the back-ups you have taken (as required above). Alternatively, you may restore this information yourself for which Epson will compensate you at a reasonable rate. Epson does not accept any other responsibility or liability for anything damaged, corrupted or lost from your system that has not been backed up correctly or for any losses arising from such damage, corruption or loss or for any failure by you to take the required back-ups.

Epson does not accept any liability beyond this. In particular it does not accept any liability (for breach of contract, negligence or otherwise) for any consequential loss or damage, loss of use of your product or other items or loss of sales, profits or opportunity you may suffer. If you think a failure by Epson to provide the Service properly may cause you losses of this kind and it is important to you to protect against them, you should either take out appropriate insurance or contact Epson to discuss individually negotiated terms at a premium price.

11. CoverPlus is described in these conditions

The terms of the agreement between you and Epson are fully set out in this document. No other terms, conditions or warranties apply to the agreement or are implied into it (except any terms implied by statute which cannot be excluded). The service to be provided is as described in this document and you should not rely on any representation made to you which suggests otherwise.

In particular: EPSON CoverPlus is referred to, by Epson and others, in marketing and other materials as an Extended Warranty or as an extension to the Commercial Warranty offered by Epson. Although this is a convenient shorthand for describing them, the **EPSON CoverPlus** contract and the Service to be provided under that contract exist independently of any such Commercial Warranty. The Services provided during the Term are indeed similar to those offered, usually for a shorter period, under Epson's free of charge Commercial Warranty. However, the Service under the **EPSON CoverPlus** contract is provided on, and only on, the conditions set out in this document and not by reference to any wording contained in any Commercial Warranty offered by Epson.

12. The nature of this contract

EPSON CoverPlus is an agreement between you and Epson for the supply of specified services if the Product fails to operate or operates outside its specification. By this agreement, Epson accepts no additional liability in respect of defects in the Product beyond a liability to provide the Service as described. It is not a policy of insurance. Nor is it a warranty, guarantee or other promise that the Product will not fail or that it meets any particular quality standard or that it will continually operate within its specification. It does not extend the rights you obtained in this respect at the time you bought the product. This agreement does not affect any existing legal rights you have against the person who supplied the Product or against Epson (whether under an Epson Commercial Warranty offered to you or otherwise).

13. Interpretation and Jurisdiction

Except in any country where it is a compulsory legal requirement, which may not be excluded by agreement, that this agreement with you should be subject to the legal system of that country, this

agreement shall be interpreted according to English law. This document has been prepared in English by Epson for use across the EMEA region. Translation into other languages is only for convenience and shall not affect the interpretation of the English document which is the definitive text.

Local sales companies address and contact details can be found at www.epson.eu/support where there is a list of countries please select your territory to be taken to your local support page.

For full descriptions of the service available and the service levels please see the CoverPlus Service Level Guide.

CoverPlus

Service level guide

How to use this service

The following tables describe the services offered when a CoverPlus support pack has been purchased.

CoverPlus is the name for all post-sales support options to extend the standard warranty supplied, and to also add extra services like maintenance, installation or upgrade a standard warranty on Epson products. To be able to see what service level and what is included in a customer's CoverPlus, the SKU is created with a system that indicates the duration and type of service the customer has purchased. This is in addition to the description also provided.

Please note not all services described are available in all Epson EMEAR regions. Please refer to your local support teams for more information.

For terms and conditions please refer to your local Epson website or helpdesk who will be able to provide them.

In order to explain we will use a **CoverPlus SKU** number as an example:

CP03RTBSCC70

SKU	C	P	0	3	R	T	B	S	C	C	7	0
	CoverPlus		Term description Duration 3 years		Service description by product type Service type delivered				Unique reference			
Digit	1	2	3	4	5	6	7	8	9	10	11	12

Term description

Extended warranty duration example

When a CoverPlus is purchased the service provided overrides the standard warranty.

The service applied from Year 1 will be the service described on the pack. When describing the contract length this includes any standard warranty period: for example a 3-year contract length CoverPlus will include in its term the standard warranty year(s) and any extended warranty period to 3 years in total.

Standard Warranty + Extended warranty = Term indicated on CoverPlus pack.

All products the CoverPlus is being registered to must be in a working condition and within their product lifetime specified in the product specifications.

In order to explain we will use a **CoverPlus SKU** number as an example:

CP03RTBSCC70

SKU	C	P	0	3	R	T	B	S	C	C	7	0
	CoverPlus		Term description Duration 3 years		Service description by product type Service type delivered				Unique reference			
Digit	1	2	3	4	5	6	7	8	9	10	11	12

Service description

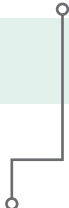

Service type example

The four characters here describe the type of service being delivered which have specific terms, all of which are explained by using the lookup table on the following pages. For example, RTBS stands for **Return To Base Service** where the customer sends or takes the faulty product into an Epson repair centre and the product is repaired and returned by courier. Other examples are OSSE which stands for **On Site Service Engineer** where a service engineer visits the customer's premises and fixes the product onsite.

There are many other types of service delivered, so please use the following pages based on the product type to get the details of the service level and service delivery type.

In order to explain we will use a **CoverPlus SKU** number as an example:

CP03RTBSCC70

SKU	C	P	0	3	R	T	B	S	C	C	7	0
	CoverPlus		Term description Duration 3 years		Service description by product type Service type delivered				Unique reference

Inkjet printers										
OSCR	✓	✓ First head kit supplied on contract registration and key user training		✓	✓		✓	✓	1 day	Self Repair CoverPlus offers the user the ability to replace the heads themselves in their EPSON printer - One head is supplied per contract - additional heads supplied above this number will be on a discounted chargeable basis. The service requires the user to register and have the main unit connected to the EPSON Cloud Solution PORT as part of the conditions of support in order for EPSON to monitor the number of heads replaced in the printers. Other warranty failures will be covered under the standard terms and conditions. It is the end user's responsibility to store the supplied head until it is to be fitted to the printer. EPSON will not be liable for any lost heads or heads damaged while at the customer site.

*Maintenance parts are parts that have a lifetime and may require replacing, they are defined in the end user guides or you can find out the parts and their lifetime by calling your local EPSON support desk <https://www.epson.eu/support>. The First print head is excluded from this term after that the heads can be purchased at a discount.

**Response times are targets that EPSON work to and are not a guarantee of service unless specifically stated in the terms and conditions and are subject to a cut-off time of 15.00 to book a service call.

***Machine must be connected and logging via Epson cloud Solution PORT to qualify for this Extended warranty pack.

****Maximum amount of discounted self repair heads that can be purchased must not exceed the number of print heads installed in the printer from new in any 12 month period. Print heads purchased under contract should only be used for that contracted printer.

Unlimited lamp pack has a fair usage policy which means that the lamps provided will not total more than the life of the projector divided by the low brightness lamp life.
RTBS	Return to base	✓	✓	✓			5	Customer sends or takes the faulty product into an Epson repair centre and the product is repaired and returned by courier. Response time is from the date the unit is received at the repair centre to the date it leaves and does not include any transportation time. It is the customer's responsibility to drop in or send the product into the repair centre. Epson will then repair and return the product or advise of any other steps.
RTBL	Return to base including lamp	✓	✓		✓		5	Customer sends or take the faulty product into an Epson repair centre and the product is repaired and returned by courier. Response time is from the date the unit is received at the repair centre to the date it leaves and does not include any transportation time. The lamp is included and will be replaced when it has failed before its stated warranty hours. It is the customer's responsibility to drop in or send the product into the repair centre. EPSON will then repair and return the product or advise of any other steps.
RTUL	Return to base unlimited lamp	✓	✓			✓	5	The customer sends or takes the product into an Epson repair centre and the product will be repaired and then returned by courier. Response time is from the date the unit is received at the repair centre to the date it leaves and does not include any transportation time. The lamp is included and will be replaced when it has failed or reached its stated end of life for the duration of the contract. Unlimited lamp pack has a fair usage policy which means that the lamps provided will not total more than the life of the projector divided by the low brightness lamp life.
OSMK	Maintenance	✓	✓					Fixed price fitting of maintenance parts and resetting of any counters and cleaning of the optical engine.
INS*	Installation	✓						After purchase please contact your local EPSON helpdesk to book the service.
TRAI	Training	✓						After purchase please contact your local EPSON helpdesk to book the service.
LWP1	Lamp pack				✓			This pack can be used to provide extended warranty on the lamp only to increase the claim period but not the stated lamp warranty life hours for the duration of the standard or extended warranty on the projector. Lamp needs to be fitted by the customer and will be delivered by courier or engineer.

*Maintenance parts are parts that have a lifetime and may require replacing. They are defined in the end user guides or you can find out the parts and their lifetime by calling your local EPSON support desk <https://www.epson.eu/support>.

CoverPlus does not cover replacement of items designated as maintenance items or life parts that have reached the end of their life unless they are specified.

**Response times are targets that EPSON work to and are not a guarantee of service unless specifically stated in the terms and conditions and are subject to a cut-off time of 15.00 to book a service call. The service varies according to your location and not all service types are available in all countries please check with the local Epson service team.
