

## Logistics

Inbound shipment data is based on fiscal year 2023 shipment data into Epson Europe main distribution plant. Whether for inbound (from factory to main distribution plant) or outbound shipment (from main distribution plant to local distribution points) the method of calculation involves confidential information that we are not able to fully disclose.

We can only describe the rough method of calculation which is to apply a certain coefficient to transportation distance (km) ÷ number of units loaded in a 20-foot container for target projector (TEU) in the case of transportation by barge and to the product weight (Kg) x transportation distance (km) in case of transportation by truck.

Ratios are based on internal information whether for inbound or outbound transportation.

1. Inbound: From the factory to Port of Rotterdam, the calculations are based on 100% by ocean vessel. From Port of Rotterdam to Bedburg, Germany (our central warehouse in Europe), the calculations are based on 100% by truck. In the UK - from Port of Southampton to our main distribution plant in Lutterworth UK, transportation is 100% by truck. Some calculations are based on a theoretical approach for practical reasons as in reality, the route can include solutions with a lesser carbon footprint namely by barge or by rail from the Port of Rotterdam to Bedburg, Germany or very occasionally (1%) by airfreight from the factory to European airports.

2. Outbound: For Europe - 100% truck from the main distribution plant in Bedburg Germany to local distribution points by truck except for Iceland which is ocean vessel. For the UK - from main distribution plant in Lutterworth UK to local distribution point - 100% by truck.

- From Epson Europe main distribution plant in Bedburg Germany to Germany local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Austria local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Switzerland local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to France local distribution points, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Netherlands local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Belgium local distribution points, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Luxemburg local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Italy local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Denmark local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Sweden local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Finland local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Norway local distribution points, Epson projectors are transported 100% by truck.

- From Epson Europe main distribution plant in Bedburg Germany to Iceland local distribution point, Epson projectors are transported by ocean vessel.
- From Epson Europe main distribution plant in Bedburg Germany to Spain local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Portugal local distribution point, Epson projectors are transported 100% by truck.
- From Epson UK main distribution plant in Lutterworth United Kingdom to UK local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Dublin local distribution point, Epson projectors are transported 100% by truck/ short sea
- From Epson Europe main distribution plant in Bedburg Germany to Poland local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Czech Republic local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Hungary local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Greece local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Estonia local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Latvia local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Lithuania local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Croatia local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Serbia/ Mont. local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Slovenia local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Bulgaria local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Romania local distribution point, Epson projectors are transported 100% by truck.
- From Epson Europe main distribution plant in Bedburg Germany to Slovakia local distribution point, Epson projectors are transported 100% by truck.
