

SureColor SC-F9400 and SC-F9400H dye sublimation printers

Bright ideas reproduced
in luminous colour

EPSON[®]
EXCEED YOUR VISION

Stand-out colours and outstanding quality

Introducing Epson's SureColor SC-F9400H and SC-F9400 64-inch dye-sublimation printers. The printers have been developed primarily for volume printing, for clothing, textiles and soft signage, as well as other printed merchandise.

The SC-F9400H also offers businesses the option of printing with two genuine fluorescent ink solutions (yellow and pink), which bring bright, vivid colours to the production of sportswear, workwear and fashion items. The SC-F9400 series is an evolution of trusted Epson print technology and provides enhanced quality whilst sustaining productivity and reliability.

A myriad of dynamic colours

Epson Edge Print has a "Colour Library Printing" function built in that can be easily installed into Adobe's Creative Suite applications, so you can push your creativity to the limit using the widest colour gamut. Fluorescent yellow and pink inks have been added alongside the CMYK range, offering high opacity and extra vivid and bright prints to help you stand out from the crowd. Also, our exceptional fluorescent inks make our printers ideal for businesses wanting to expand their offering into additional markets and create vivid, eye-catching sportswear, a wider variety of fashion apparel or engaging soft signage.

High speed High productivity

Maintaining high output, even when printing intense colours, the new printers bring you more efficiency as well as more business opportunities.

Fluorescents in a flash

Epson SureColor SC-F9400 and SC-F9400H printers have a maximum speed of 108.6m²/h. They also come with a post-heater that boosts drying capability, so fast turnarounds are not an issue.

With UltraChrome DS inks – specifically designed by Epson for our dye sublimation printers – the only limits are your imagination.

Improved take-up

The SC-F9400 and SC-F9400H's updated settings deliver lower tension and accurate registration, which improves take-up, achieves a low total cost of ownership (TCO) and reduces costs considerably by using lower paper weights.

Low maintenance. Low total cost of ownership

With Epson printers, reliability and peace of mind go together. So, while the designs and products you produce become ever-more exciting, delivering them cost-effectively is reassuringly predictable.

Our printers, our solution

When you buy an Epson printer it's reassuring to know that we provide you with expertise from start to high-quality finish: printer, inks, media, Epson Edge Print software and support. Combine that with straightforward setup and operation, it translates to a seamless experience for the user and complete peace of mind. It's the ideal solution for businesses looking to move into dye sublimation, or those who want to update an earlier model.

Simple servicing, better service

With genuine Epson ink, and with Epson's service and support, our 1-year warranty and optional extended warranty deliver peace of mind with every production run.

Instructions via QR code movie

It's never been simpler to carry out maintenance correctly. You can watch the printer's instruction maintenance video using the QR code, which is attached to the machine. It couldn't be easier!

The total solution

To compliment your printer, utilise Epson Edge Print software to offer your customers a greater level of service whilst making your life simpler and saving valuable production time. Open up new opportunities for your business and offer your customers more choice.

Included as standard with the SC-F9400 and SC-F9400H printers, this simple-to-use, feature-rich software helps boost business, speed-up printing and increase output. Epson's connectedness doesn't end there, it extends from your studio to the cloud. With the Epson Edge Dashboard, there is a wider choice of EMX files, which means additional profiles can be accessed from the cloud and downloaded easily for maximum quality output.

Epson Edge Print

Calculate the value of each print

Work in harmony with the LFP Accounting tool to help you calculate the cost of each print, based on ink and paper consumption. This gives you better visibility and provisioning on each job.

Bring designs to life

Deliver smooth gradations, consistent colour matching and prints with minimal graininess.

Simplify production

Link with up to ten printers quickly, and be up and running as soon as the Epson Print Edge software is installed.

Provide consistent, high-quality outputs

Make the most of your Epson printers wide colour gamut. When used in combination with media profiles, you'll get superb results every time.

Model	SureColor SC-F9400	SureColor SC-F9400H
Printhead configuration	PrecisionCore TFP Printhead 360 nozzles x 4 channels x 2 head	PrecisionCore TFP Printhead 360 nozzles x 5 channels x 2 head
Maximum print speed	108.6m ² /hr	
2 pass print speed	60.1m ² /hr (4-colour)	62m ² /hr (6-colour)
4 pass print speed	29.9m ² /hr (4-colour)	32.1m ² /hr (6-colour)
Max print resolution	720 x 1440dpi	
Max. media width	1,626mm (64 inch)	
Roll outer diameter	250mm	
Reel outer diameter	250mm	
Max. roll weight	45kg	
Number of inks	2 x 4 colours (C,M,Y,K)	2 x 4 colours (C,M,Y,K) + FY, FP
Ink capacity	1.1lt	1.1lt, 1lt fluorescent
Dimensions	2,620 x 934 x 1,332mm (Width x Depth x Height)	
Weight	290kg	
Voltage	AC 110V - 220V, 50Hz - 60Hz	
Take up (over 61gsm)	+/- 2.5mm	
Warranty	1 year onsite	
Software	Epson Edge Print	

Committed to corporate and social responsibility

Epson is committed to developing environmentally conscious products, which means that sustainability is considered from conception to completion. We help customers recognise the environmental gains brought on by technology, whether it is redefining manufacturing through innovative robotics, saving energy with our office printing technology or revolutionising textile printing with digital solutions.

We are committed to all 17 United Nations' sustainable development goals and to the aims of the circular economy. We offer sustainable innovations because we recognise that the choices we make as organisations, individuals or a society will be essential to our shared success.
