

Reliable printers built to meet your labelling needs

Today's retail and hospitality consumers demand greater convenience, faster transactions and more personal service. Epson offers a reliable and robust line-up of thermal label printers for applications where flexible labelling is required.

Our compact, high-speed label printers deliver on-demand printing for a variety of label types – whenever and wherever you need them. One printer supports both thermal label and receipt printing. With multiple connectivity options, one year warranty (RTB) and paper saving (17% compared to previous model¹), we have got you covered.

Dedicated technical resource team

We're dedicated to working closely with our customers to provide a total solution. Our experts are available to work directly with each client for personalised design and development. We'll join with our partners of choice to create customised SKUs as needed.

Customised Solutions

Providing the product that works best for each client is a priority for Epson. That's why we offer product modifications as well as customised solutions.

Epson CoverPlus

This optional, additional warranty extends your peace of mind for three years from the date of purchase. Epson CoverPlus allows the option of extending and upgrading the standard warranty available with the product to provide additional cover should the product develop any fault.

Epson CoverPlus extended warranty packs must be purchased within 90 days of the purchase of the original product it is to cover.

Epson business solutions

Epson is a leading provider of innovative technology solutions that help businesses succeed. We partner with you so we can deliver cost-effective, high-quality solutions coupled with world-class customer service and support. We focus on improving productivity whilst remaining committed to the environment.
