

Flexible scanners for a better connected workplace

The right scanner to suit your needs

Epson has developed a comprehensive range of reliable sheetfed scanners, with technologies that significantly cut the steps required to capture, store and share documents.

From cost effective entry level A4 scanners right through to A3 devices with scanning capability of up to 90 pages per minute, Epson covers most everyday scanning requirements.

Epson scanners feature advanced paper feeding technology. Automatic document feeding, slow mode functionality and double feed detection skip, make scanning challenging media easier than ever before.

Benefit from advanced document imaging features that enable high-quality scans to be seamlessly stored in your workflow, from simple document filing systems to cloud services and enterprise content management solutions.

As the requirement for sharing data becomes greater, Epson introduces ScanWay.

Epson's ScanWay models have network sharing functionality and support PC-free, standalone operation. This simplifies job workflows and enhances security as no data is left on the PC.

ScanWay provides simple, reliable, and secure scanning solutions for scanner operators and administrators.

1. Scan to¹ network folder, e-mail, cloud, and USB stick².
2. Additional shortcut buttons³ and panel customisation⁴ makes individual job identification simple, even if a large number of people share the device, speeding up productivity and eliminating manual routing errors.
3. User authentication⁵ functionality allows multiple users to share scanners ensuring personal job profiles are instantly accessible for optimal efficiency.

Epson supports a wide range of applications across numerous sectors and business environments. You can be confident that Epson has a sheetfed scanner to suit your needs.

A scanner for every business environment

USB scanners

(DS-410, DS-530II, DS-770II)

Powerful media handling and innovative smart features ensure a high level of data integrity. These scanners are geared towards highly-efficient and simple integration into an organisation's workflow. They offer single-pass duplex scanning in a wide variety of paper sizes, including receipts and business cards. Thanks to Document Capture Pro, you can also access advanced features to rapidly capture, index, store and share documents.

High speed USB scanners

(DS-870, DS-970)

High-speed duplex document scanning without compromising data integrity. Continuous scanning via the high-capacity Automatic Document Feeder enables you to get through large jobs quickly and efficiently. And as if that wasn't enough, with the intuitive panel, it's possible to easily scroll through predefined jobs, getting scanned documents to the right place in just a few presses of a button.

Network scanners

(ES-500WII, ES-580W, DS-730N, DS-790WN)

Epson's Network scanners allow you to scan directly to network and cloud folders, email addresses, and USB memory stick⁶. In addition to this, standalone ScanWay scanning enables you to route scanned documents directly to the right destination without the need to connect to a PC⁷.

A3 scanners

(DS-30000, DS-32000)

Epson's compact A3 desktop scanners support busy office environments. They feature a high-capacity feeder, wide media scanning capabilities and a large easy-to-use touchscreen display panel. The Automatic Document Feeder (ADF) has the ability to scan the widest range of media in its class⁸. Scan passports⁹, passbooks, ID cards and large-format documents. The DS-32000 also features a unique adjustable chassis design - Normal, Horizontal and Compact - allowing customers to choose the best physical position for their scanning needs.

Software for workflow solutions

Epson has a range of software and applications to support your business, designed to speed up workflow efficiencies, ensuring that your documents are captured to the highest quality.

Epson ScanSmart

Simple, intuitive software makes scanning easy. The software wizard guides you through the process step by step, including options to scan directly to cloud folders, attach documents to email and save in Microsoft Office formats. Automatic file and folder naming help speed up workflow efficiencies.

Epson Scan 2

Gives you access to basic and advanced, easy to use, scanning features. Before saving the scanned image, it can be previewed, selected or adjusted by changing the settings. Text enhancement and background removal improve the overall quality of the final saved image for peace of mind.

Epson Document Capture Pro

Scan, edit, save and share information easily and efficiently with DCP. Advanced features for naming, separating and routing documents makes scanning seamless. Files can be saved and set in common formats like PDF, PDF/A, Word, Excel, PowerPoint, JPEG, TIFF, among others. Additionally, job profiles can be created for one-touch push scanning, saving valuable time.

Epson Document Capture Pro Server

A powerful, server based software for Epson's network scanners and multi-function devices. DCPS allows administrators to centrally manage job profiles and devices for up to 100 scanners in the network. Monitor fleet performance without having to install drivers on individual computers. Use simple functions to scan documents intuitively and securely.

Epson Document Capture Pro Server Authentication Edition

With the Authentication Edition of the Document Capture Pro Server, IT infrastructure managers control scanning tasks centrally, including user access rights and log-ins, job profiles, and even device management. This creates a secure workflow environment, ensuring the correct job presets are accessible and documents are sent to the correct destinations.

⁶Different functions apply to different models

⁷ScanWay scanning is not available on the ES-500WI

⁸When comparing against the market leader's own website – Epson has the capability to scan the widest range of media through the Automatic Document Feeder (ADF). From 20-413gsm and bound media up to 6mm thick including passports. Up to raw A3 media (RA3) that features a width of 305mm.

⁹To scan passports, the optional passport carrier sheet is required at extra cost
