Switch to network scanners for increased connectivity

The Epson network scanner range is built with performance at its heart, making it the ideal solution for workgroups and teams looking to share documents quickly and securely.

Epson's ScanWay models have network sharing functionality and support PC-free, standalone operation. This simplifies job workflows and enhances security, as no data is left on the PC.

ScanWay provides simple, reliable, and secure scanning solutions for scanner operators and administrators.

– Scan to[1] network folder, email, cloud, and USB stick[2] to make digitising and organising files easy.

– Additional shortcut buttons[3] and panel customisation[4] makes individual job identification simple, even if a large number of people share the device. Improving productivity and eliminating manual routing errors.

– User authentication[5] functionality allows multiple users to share scanners ensuring personal job profiles are instantly accessible for optimal efficiency.

Look out for ScanWay compatible models.

ScanWay®

EPSON®
EXCEED YOUR VISION

DS-790WN

Premium, standalone scanning solution

The DS-790WN is a standalone sheetfed scanner with advanced authentication functionality.

Prevent unauthorised access to the scanner or use of unauthorised features with a range of authentication methods, including ID cards*, login credentials or pin codes.

Route scanned documents directly to the right destination using the 10.9cm colour touchscreen, scan direct to network and cloud folders, email addresses, or attached USB memory stick - no computer required.

The 100-sheet auto document feeder permits double-sided scanning in a single pass at speeds up to 45ppm/90ipm. Scan a vast range of media between 27-413gsm, including receipts, business cards, plastic cards and multiple paper sizes.

With a 7,000 pages-per-day duty cycle and inbuilt sensors to prevent paper jams, double-feeding, and dirt-on-glass detection, all documents are kept safe and scanned to the highest quality.

*Card reader not included.

DS-730N

Affordable, standalone scanning solution

The DS-730N is a cost-effective, highly efficient network scanner that connects your business at the touch of a button.

Scan directly from the control panel, to email addresses, network folders, FTP and SFTP without the need for a PC or server. Alternatively, use Document Capture Pro software to scan to cloud services and Microsoft applications at the touch of a button[6].

Three Quick Send buttons and a 3.6 cm colour LCD display enables you to choose the correct job and send documents to the right destination, including up to 300 contacts, without delay.

Take advantage of image and text enhancement features to improve quality and ensure files can be clearly read without loss of crucial information.

ES-580W

Versatile, easy to use, wireless scanning solution

The ES-580W is the ideal sheetfed scanner
for small businesses and home offices,
with an easy-to-use, large touchscreen.

Get organised with this versatile, easy-to-use scanner with auto-sheet feeder. Using
the 10.9cm touchscreen, scan wirelessly, direct to network and cloud folders, email
addresses, or USB memory stick - no computer required.

Work fast and smart with customisable presets and layouts, and save even more time
with double-sided scanning in a single pass, 100-sheet auto document feeder and
scan speeds of 35ppm/70ipm.

With inbuilt sensors for paper jams, double-feeding, and dirt-on-glass detection,
all documents are kept safe and scanned to the highest quality.

Take advantage of intelligent colour and image adjustment functions to auto crop,
skew correct, and remove blank pages and backgrounds with Epson's Image
Processing Technology.

ScanWay

ES-500WII

Robust, auto-duplex scanning solution

The ES-500WII is a robust sheetfed scanner,
ideal for digitalisation of documents from
computers, tablets, and smartphones.

Digitise your files with this auto-duplex scanner and 50 sheet automatic document feeder.
Scan from PCs, Macs, smartphones and other devices from any room, choosing between
Wi-Fi or USB 3.0 connectivity.

Scan all business documents from business cards and receipts to invoices and letters.
The auto feeder is compatible with media weights between 27-413 gsm, while Epson's Image
Processing Technology provides intelligent colour and image adjustments for accurate results.

With 4,000 pages per day duty cycle and inbuilt sensors prevent tedious paper jams, double
feeding, and dirt-on-glass detection, giving you peace of mind that your documents are protected
and captured accurately. Meanwhile, the intuitive Epson ScanSmart scanning software lets
you preview, email, upload and more. Create searchable PDFs, and editable Word, Excel and
PowerPoint files with the built-in Optical Character Recognition (OCR) software.

[6]Some features require the use of Epson software packages

A13790_Network_scanner_range_1EN-INT_06/22

Intuitive software

Epson's software suite is a range of easy-to-use solutions for scanning, separating and sending documents around your business and beyond.

ScanSmart
ES-500WII, ES-580W

The Epson ScanSmart software makes scanning easy. The software wizard guides the user through the process step by step, including options to scan directly to cloud folders and e-mail addresses.

Document Capture Pro
DS-730N, DS-790WN

Document Capture Pro has advanced features for naming, separating and routing documents that makes scanning easy and enables you to send files in common formats like PDF, jpeg, tiff and many more. The software also features tools to enhance and improve the quality of an original document, including auto rotate and deskew, colour enhance/dropout and text enhancement to ensure that the best quality is achieved for future data use.

Smart Panel app
ES-500WII, ES-580W

Power your scanner from your fingertips. Epson Smart Panel enables you to control your scanner from smart phones and tablets including changing the wireless settings and 'scan to' maintenance. Scan files to Box, Dropbox, Google Drive, Microsoft One Drive and iCloud on the go.
