Smart liner-free label printing

EPSON
EXCEED YOUR VISION

Improve productivity and workflow

The compact, high-speed TM-L100 label printer delivers on-demand printing for a variety of label types - whenever and wherever you need them. The sleek and stylish printer supports both thermal label and receipt printing on a range of media, including thick and highly-adhesive media, to help create a range of permanent and semi-permanent labels.

Minimalise environmental impact with liner free labels, produce clear, legible labels, without the need to peel off the backing paper. Enhance your productivity with printing speed up to 170mm/s. The TM-L100 reduces time and avoid costly mistakes associated with handwriting labels.

Easily connect and integrate into existing POS systems, thanks to embedded ePOS capacities. With multiple flexible connectivity options, one year warranty (with the possibility to extend to up to 5 years) and paper saving function, we have got you covered.

The TM-L100 label printer has USB and Ethernet connection in all models and options of Serial, Bluetooth and WiFi (WiFi connectivity requires WiFi dongle sold separately). Print direct from a server using Server Direct Print technology, perfect for online ordering.
