Business Scanners

The benefits of Heat-Free printing technology

Laser printing process

Typically this is a complex process involing separate stages. It requires preheating the fuser, and again uses heat to fuse the toner to the paper.

Uses heat

Laser printers | Receive print job | Preheat the fuser | Charge the photoreceptor drum | Laser exposure

Uses heat

Development | Toner transfer | Fusing | Print out
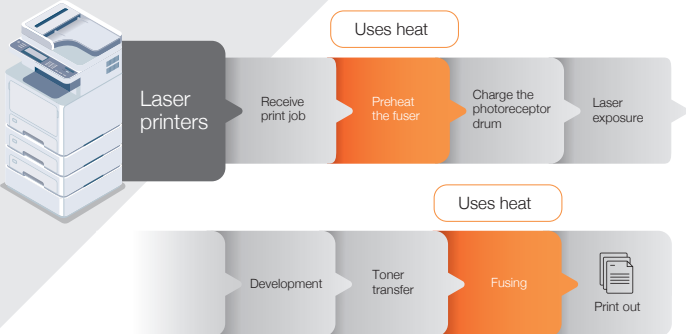

Inkjet printing process

This method is comprised of only three stages to achieve a printout.

Uses heat

Other Inkjet printers | Receive print job | Thermal ink ejection | Print out

Heat-Free

Epson Inkjet printers | Receive print job | Piezo ink ejection | Print out

PRECISIONCORE
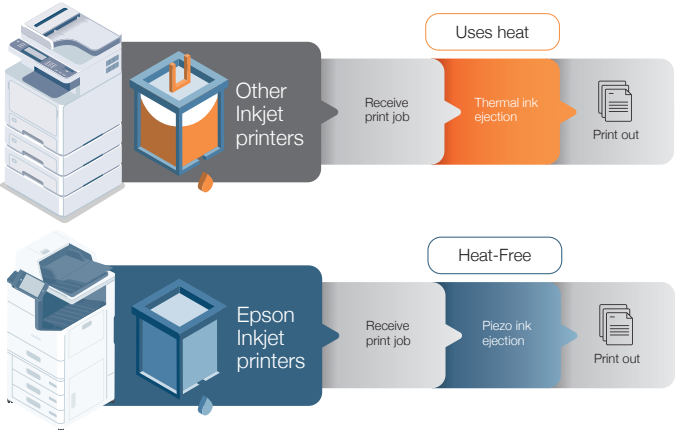

HEAT•FREE

Save time with consistent high-speed printing

Heat-Free printing technology requires no heat to warm up when it is switched on or awoken from sleep. This means printing starts immediately.

Less power consumption saves energy and money

Heat-Free printing technology uses less power because it does not use heat to warm up. As inkjets have no fuse unit to heat, this results in significantly less energy consumption.

Fewer replacement parts, lower environmental impact

Laser printers typically have more consumables and require periodic replacement of the drum, transfer belt and fuse in many cases. Thanks to Heat-Free printing technology, our inkjet printers use fewer parts that need replacing.

Less intervention increases productivity

The Heat-Free structure of Epson inkjet printers means that there are fewer parts that can fail, which reduces the amount of intervention required.

Business as usual is the new normal

Epson offers professional and affordable solutions for remote workers and enables safe social distancing in office spaces.

Flexible solutions for every space

Epson's wide range of innovative and easy-to-use multifunction printers allow users to remain productive without compromise. Enable safe social distancing in the workplace and work with ease at home.

Making the most of printer fleets

Navigating the challenges of social distancing in the office environment is made easier with Epson printer fleets. A fleet of decentralised desktop A4 printers will help create a safer workplace. Not only will this reduce touchpoints between staff, it could also improve employee productivity, with less waiting time for prints to be delivered. The management and monitoring of those devices is simplified with Epson Device Admin. Service partners benefit from Epson Remote Services to remotely analyse the potential issues, and therefore provide a faster service, maximising device uptime.

Where centralised printing zones is required in the office, Epson has simple and smart software solutions that will instantly make the workplace a safer space. Epson Print Admin and Pull Print features only allow prints to be released from print queue once the sender is physically there to retrieve them, limiting pages left in the print tray that others handle and search through.

Plus, you can set up contactless printing. Simply swipe an ID card to the release process and remove the need to touch the printer.

Business imaging solutions

Discover how Epson and its partner solutions take advantage of our printers to meet the needs of businesses from SMBs to large enterprises, and can be adapted to suit vertical market needs.

Fleet management

Epson Device Admin (EDA)

Control, analyse and manage your printer fleet centrally from one intuitive interface, designed to increase productivity, reduce costs and ensure maximum security.

Remote Service and Support

Epson Remote Services (ERS)

Epson's cloud-based device monitoring and management system helps your service provider to perform accurate remote diagnosis without compromising on the security. Arm service technicians with the information they need to achieve higher first fix rates and increase your device uptime.

ERS embedded agent

Benefit from the added value of ERS in combination with the embedded agent for a seamless setup and use.

Mobile and cloud printing

Mobile and Cloud printing

Turn your tablet or smartphone into a powerful office assistant. Epson's mobile and cloud printing services allow you to print and scan from your smartphone and tablet - in the office and on the go.

Workflow and security

Epson Print Admin (EPA)

Boost productivity and monitor print usage via a server-based solution that creates a secure printing, scanning and copying environment through user-authentication.

Epson Print Admin Serverless (EPA Serverless)

Seamlessly integrate devices into your security and compliance rules and regulations, without the burden of maintaining a server system.

Document Capture Pro (DCP)

Scan, save and share information easily. Advanced features for naming, separating and routing documents makes scanning simple and logical.

Document Capture Pro Server (DCPS)

For our multi-function devices, with Document Capture Pro Server administrators can manage push scan functions without installing software on individual computers.

Third party integration

Epson Open Platform (EOP)

Gain complete control of your printing operations via a web-based application that enables you to adapt your printer to meet specific and changing business requirements with solutions that help you better manage your printing.

DURABrite Ultra Ink and DURABrite Pro Ink

Epson's business inkjet printers use high-quality - ISO 11798:2000 certified[1] - DURABrite Ultra Ink and DURABrite Pro Ink that deliver business-quality prints that are water, smudge and highlighter resistant. With printing costs being a big concern for any business, Epson also offers a choice of cartridge sizes designed to suit the way you print.

Business quality documents
Laser-like text and graphics on plain paper.

Perfect prints
Enhance printed materials with high-quality graphics.

More choice
Print on a wide range of paper, including high impact colour on glossy media.

1 DURABrite Ultra Ink and DURABrite Pro Ink have been certified ISO 11798:2000 by Research Institute of Sweden (RISE). For more information visit www.ri.se

Business inkjet product overview

WorkForce Enterprise: Fast and efficient

Print high-quality documents with this reliable and environmentally-friendly departmental colour and mono A3+ business multi-function printer (MFP) range.

WorkForce Pro A3+ RIPS: High yield printing

Discover our Replaceable Ink Pack System (RIPS) technology for super high-yield printing with minimal waste.

WorkForce Pro A3+ colour: Stay connected

Perfect for businesses of all sizes, A3+ colour printers with GigaBit Ethernet connectivity are ideal for enterprise integration.

WorkForce Pro A4 RIPS: Less waste

Epson's latest A4 Replaceable Ink Pack System (RIPS) products offer exceptionally high ink yields, low total cost of ownership (TCO) and a low environmental impact.

WorkForce Pro A4 colour: Low environmental impact

Reliable, connected and flexible, our WorkForce Pro business printers boost productivity and deliver low energy consumption and fast speeds.

WorkForce Pro A4 mono: Packed with features

Feature-rich A4 mono printers with duplex printing, Ethernet connectivity and fast print speeds.

EcoTank Pro A4 colour: Extremely low TCO

With an extremely low TCO, this reliable colour printer also offers an easy-access, no-spill, no-mess refill system.

EcoTank Pro A4 mono: Lower costs

EcoTank business printers deliver an extremely low TCO in a user-friendly and compact design.

Document Scanners

Create a better business environment with the support of a global leader in scanning solutions. Built with performance at its heart, the Epson business scanner range is the ideal solution for high performance and high volume scanning.

Mobile scanner range

Featuring some of the lightest products in their class, these scanners are ideal for scanning on the go, and keeping productivity high.

– Lightweight

– Automatic document feeder

– Wi-Fi and Wi-Fi Direct

– Built-in Lithium Batteries

– Correct document skew

Sheetfed scanner range

Built with performance at its heart, the Epson sheetfed business scanner range is the ideal solution for organisations adopting hybrid working practices, while maximising productivity.

– High-speed ADF scanning with duplex

– Versatile media handling

– Wi-Fi and network options

– Onboard sensors to prevent errors

– Automatic paper size detection

Flatbed scanner range

The flatbed range quickly and easily scans documents of any shape or size. Ideal for scanning irregular shapes or fragile items, as well as books and bound media.

– A4 and A3 duplex solutions

– High-speed ADF scanning with duplex

– Scan up to 8,000 pages per day

– Network versions

– Automatic paper size detection

Effortless integration and sharing

Epson scanners are designed for seamless integration into your IT environment with industry standard TWAIN, WIA and ISIS driver support.

With Epson Document Capture software, create dynamic workflows for those in the office or working from home, by scanning and sharing documents to network folders, SharePoint, cloud services or via email. It enables collaboration to all stakeholders regardless of location.

With our Wi-Fi Direct™ solutions, users can control business scanners with Android and Apple mobile devices through the Epson DocumentScan app. Simple solutions for agile workers and hot-desking.
