EPSON[®]
EXCEED YOUR VISION

We've changed home printing forever

Epson EcoTank printers deliver superb quality, hassle-free printing at an ultra-low-cost. The perfect solution for busy homes, home offices and small businesses, they come with ultra-high-capacity refillable ink tanks allowing you to print thousands of pages without the hassle of replacement ink cartridges.

The ink filling system minimises spills with bottles that are easy to open and have an airflow system so squeezing is not necessary during the filling process. The bottles also feature a key-lock design that ensures each tank is filled with the right colour.

Print on the go with the Epson Smart Panel app

For families on the go, or for businesses that never stop, the Epson Smart Panel app enables you to control your printer from your smart phone or tablet⁴. You can print, copy and scan documents or photos, set up, monitor and troubleshoot your printer, or just let your creativity flow with a wide range of artistic templates.

Look out for the Smart Panel symbol which shows which printers are compatible with the app.

For busy households

Welcome to Heat-Free Technology

Epson's unique Heat-Free Technology offers numerous benefits over laser and thermal inkjet models. To start off, this technology doesn't need to warm up when switched on.

A first page can be printed fast, using less power consumption, and running costs are reduced further due to fewer replacement parts being needed. Epson Heat-Free Technology offers improved reliability, reduced downtime and less environmental impact.

Print more Save more

Ultra-low-cost printing

Saving you over 90% on the cost per page¹⁰, you can take the hassle out of printing with up to 11,000 pages worth of ink included in the box⁹. That's the equivalent of up to 5 toner cartridges on average¹⁰.

Save energy

Cut energy usage and reduce overheads with savings of up to 95% in power consumption compared to mono laser printers¹².

Save time

Printing is fast with no warm-up time, first print out in as little as 6 seconds¹¹ and print speeds of up to 20ppm⁶.

Peace of mind

Giving peace of mind, every EcoTank mono printer comes with a 1-year/100,000-page warranty¹⁵.

¹IDC, Quarterly Hardcopy Peripherals Tracker, 2010 to 2021 shipments, published Q1 2021. ²As of 30th April 2022. Cumulative sales of Epson ink tank printers since launch in 2010 based on Epson internal shipment data. ³Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test Patterns provided in ISO/IEC 24712 or 29103. Quoted yields are NOT based on ISO/IEC 24711 or 29102. Quoted yields may vary depending on the images that you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set will be lower. ⁴Mobile printing solutions require a wireless and/or an Internet connection to the printer. For a list of Epson Connect enabled printers, compatible devices, apps and ways to connect, visit www.epson.co.uk/connect ⁵Based on Epson calculations, the average cost per page saving and the average number of inkjet cartridges required to print the same number of pages as the Epson EcoTank "102" and "104" ink bottles. Comparison between the average yield (A4 prints of ISO/IEC 24712 test pattern) of EcoTank "102" and "104" ink bottle series and the genuine consumables (IDC, Hardcopy Peripherals Consumables Tracker, 2021 shipments, published Q1 2022) used within the 30 best-selling consumer A4 inkjet cartridge printers in France, Germany, Italy, Spain and UK (IDC, Quarterly Hardcopy Peripherals Tracker, 2021 shipments, published Q2 2022). Cost per page calculated by dividing the relevant bottle/cartridge sales revenue and the total yield by the unit sales. ⁶Determined in accordance with ISO/IEC 24734 showing the average of ESAT from the Office Category Test for default simplex. For more information visit www.epson.eu/testing. ⁷First-Print-Out-Time (FPOT) measurement method: ISO/IEC17629 Office Category Test; paper size A4. A set of Microsoft Word, Microsoft Excel and PDF files (each set containing 4 pages) is continuously printed. Measurement is based on the average time for the first of the four single-sided prints to exit the printer. Measurement starts when the print button is pressed and ends when the first page of the set exits. ⁸Number of pages printed is based on the highest cost per page (CPP) of Epson 113 ink bottles. CPP is calculated from the total combined price of cyan, magenta and yellow ink bottles RRP's for colour pages or the black ink bottle RRP's for black pages, divided by the published page yields. RRP correct as of January 2020. ⁹Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test patterns provided in ISO/IEC 19752. Quoted yields are NOT based on ISO/IEC 24711. Quoted yields may vary depending on the images you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set can be lower. ¹⁰Based on Epson calculations, the average cost per page saving and the average number of toner cartridges required to print the same number of pages as an Epson EcoTank "111" ink bottle. Comparison between the yield (A4 prints of ISO/IEC 19752) of the EcoTank "111" bottle and yield of the genuine consumables (IDC, Hardcopy Peripherals Consumables Tracker, 2020 shipments, published Q1 2021) used within the 10 best-selling 1-20ppm cartridge-based mono laser printers in France, Germany, Italy, Spain and UK (IDC, Quarterly Hardcopy Peripherals Tracker, 2020 shipments, published Q1 2021). Cost per page calculated by dividing the relevant bottle/cartridge sales revenue and the total yield by the unit sales. ¹¹First-Print-Out-Time (FPOT) measurement method: ISO/IEC17829 Office Category Test; paper size A4. A set of Microsoft Word, Microsoft Excel and PDF files (each set containing 4 pages) is continuously printed. Measurement is based on the average time for the first of four single-sided prints to exit the printer. Measurement starts when the print button is pressed and ends when the first page of the set exits. ¹²Comparison of the power consumption while printing of the Epson ET-M1120, ET-M2170 and ET-M3170 models against the average top selling 75% of A4 monochrome laser printers (below 20ppm class) for the 12 months ending September 2018. Power consumption values as communicated by the manufacturer's websites. ¹³Automatic set-up compatible with Windows 10, Windows 8, Windows 7, Windows Vista and Mac OS. ¹⁴AirPrint enables instant wireless printing from iPhone, iPad, iPod touch, and Mac without the need to install drivers or download software. ¹⁵For warranty details please check the product page on your local Epson website. ¹⁶Based on print volume of 100 A4 pages per month and the lowest yield produced from the included set of inks. Excludes photo and business models. ¹⁷In the ET-2830, ET-2840 and ET-4810 models the ratio of the amount of recycled plastic weight to overall plastic component weight of the hardware. The amount of recycled contents and recycled material varies depending on the model, manufacturing time and site.
