EPSON®
EXCEED YOUR VISION

We've changed home printing forever

Epson EcoTank printers deliver superb quality, hassle-free printing at an ultra-low-cost. The perfect solution for busy homes, home offices and small businesses, they come with ultra-high-capacity refillable ink tanks allowing you to print thousands of pages without the hassle of replacement ink cartridges.

The ink filling system minimises spills with bottles that are easy to open and have an airflow system so squeezing is not necessary during the filling process. The bottles also feature a key-lock design that ensures each tank is filled with the right colour.

Mess-free refill system

Why choose an EcoTank printer?

Take the hassle out of printing with up to 14,000 pages worth of ink included in the box[1].

Ultra-low-cost printing
EcoTank printers deliver an unbeatable 90% lower cost-per-page than competitive printers[2].

Peace of mind
Provide Epson quality, speed and reliability, giving you true peace of mind backed up by a 1 year standard warranty, and a 3 year extended promotional warranty with sign up. Terms and conditions apply[4].

Save up to 90% on ink costs[2]

Up to 3 years of ink included[3]

ecotank

Welcome to Heat-Free Technology

Epson's unique Heat-Free Technology offers numerous benefits over laser and thermal inkjet models. To start off, this technology doesn't need to warm up when switched on.

A first page can be printed fast, using less power. Running costs are reduced further due to fewer replacement parts being needed.

Epson Heat-Free Technology offers improved reliability, reduced downtime and less environmental impact.

Print on the go with the Epson Smart Panel app

For families on the go, or for businesses that never stop, the Epson Smart Panel app enables you to control your printer from your smart phone or tablet[5]. You can print, copy and scan documents or photos, set up, monitor and troubleshoot your printer, or just let your creativity flow with a wide range of artistic templates.

Look out for the Smart Panel symbol which shows which printers are compatible with the app.

Epson's EcoTank series

Choose the ideal model to suit your needs and enjoy thousands of low-cost, hassle-free prints.

EcoTank Mono

Say goodbye to toners

Ultra-low-cost printing

From the start you have enough ink to print up to 11,000 pages[9], cutting costs and saving time as you're not frequently changing toner.

Save energy

Cut energy usage and reduce overheads with savings of up to 95% in power consumption compared to mono laser printers[10].

Save time

Printing is fast with no warm-up time, first print out in as little as 6 seconds[11] and print speeds of up to 20ppm[6].
Save up to 95% on power consumption[10]

Easy to use

EcoTank has a large refillable ink tank that is filled with the included ink bottles. This ink filling system minimises spills with bottles that feature a key-lock design to ensure the tank is filled with the correct ink.

Peace of mind

Giving peace of mind, every EcoTank mono printer comes with a 1-year/100,000-page warranty, and a 3 year extended promotional warranty with sign up. Terms and conditions apply[4].

1 ink bottle $=$ Up to 5 laser toners[8]

1. Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test Patterns provided in ISO/IEC 24712 or 29103. Quoted yields are NOT based on ISO/IEC 24711 or 29102. Quoted yields may vary depending on the images that you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set will be lower. 2. Based on Epson calculations, the average cost per page saving and the average number of inkjet cartridges required to print the same number of pages as the Epson EcoTank "101" and "103" ink bottles. Comparison between the average yield (A4 prints of ISO/IEC 24712 test pattern) of EcoTank "101" and "103" bottle series and the genuine consumables (IDC, Hardcopy Peripherals Consumables Tracker, 2021 shipments, published Q1 2022) used within the 10 best-selling consumer A4 inkjet cartridge printers in Czech Republic, Hungary and Poland (IDC, Quarterly Hardcopy Peripherals Tracker, 2021 shipments, published Q1 2022). Cost per page calculated by dividing the relevant bottle/cartridge sales revenue and the total yield by the unit sales. 3. Based on print volume of 100 A4 pages per month and the lowest yield produced from the included set of inks. Excludes photo and business models. 4. Terms and conditions apply. For details, please visit www.epson.eu/printerwarranty. 5. Mobile printing solutions require a wireless and/or an Internet connection to the printer. For a list of Epson Connect enabled printers, compatible devices, apps and ways to connect, visit www.epson.eu/connect. 6. Determined in accordance with ISO/IEC 24734 showing the average of ESAT from the Office Category Test for default simplex. For more information visit www.epson.eu/testing. 7. AirPrint-enabled printers work with iPhone 4s and later, iPad 2 and later, all models of iPad Air and iPad mini, and iPod touch 5th generation with the latest version of iOS, and Mac with the latest version of OSX. 8. Based on Epson calculations, the average cost per page saving and the average number of toner cartridges required to print the same number of pages as an Epson EcoTank "110" ink bottle. Comparison between the yield (A4 prints of ISO/IEC 19752) of the EcoTank "110" bottle and yield of the genuine consumables (IDC, Hardcopy Peripherals Consumables Tracker, 2020 shipments, published Q1 2021) used within the 20 best-selling 1-20ppm cartridge-based mono laser printers in Czech Republic, Hungary, Poland and Turkey (IDC, Quarterly Hardcopy Peripherals Tracker, 2020 shipments, published Q1 2021). Cost per page calculated by dividing the relevant bottle/cartridge sales revenue and the total yield by the unit sales. 9. Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test patterns provided in ISO/IEC 19752. Quoted yields are NOT based on ISO/IEC 24711. Quoted yields may vary depending on the images you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set can be lower. 10. Based on Epson calculations, the average power saving of the Epson EcoTank mono range of printers compared to the 20 best-selling 1-20ppm cartridge-based mono laser printers in Czech Republic, Hungary, Poland and Turkey (IDC, Quarterly Hardcopy Peripherals Tracker, 2020 shipments, published Q1 2021). Comparison based on the average power when printing/copying. Power consumptions taken from the manufacturers' official specifications. 11. First-Print-Out-Time (FPOT) measurement method: ISO/IFC17829 Office Category Test; paper size A4. A set of Microsoft Word, Microsoft Excel and PDF files (each set containing 4 pages) is continuously printed. Measurement is based on the average time for the first of four single-sided prints to exit the printer. Measurement starts when the print button is pressed and ends when the first page of the set exits. 12. As of 30th April 2022. Cumulative sales of Epson ink tank printers since launch in 2010 based on Epson internal shipment data. 13. IDC, Quarterly Hardcopy Peripherals Tracker, 2010 to 2021 shipments, published Q1 2021. 14. In the L3550, L3560 and L5590 models the ratio of the amount of recycled plastic weight to overall plastic component weight of the hardware. The amount of recycled contents and recycled material varies depending on the model, manufacturing time and site. 15. For test conditions, please visit www.epson.eu/testing.
