We've changed **HOME PRINTING** forever

Epson EcoTank printers deliver superb quality, hassle-free printing at an ultra-low-cost. The perfect solution for busy homes, home offices and small businesses, they come with ultra-high-capacity refillable ink tanks allowing you to print thousands of pages without the hassle of replacement ink cartridges.

The ink filling system minimises spills with bottles that are easy to open and have an airflow system so squeezing is not necessary during the filling process. The bottles also feature a key-lock design that ensures each tank is filled with the right colour.

Mess-free refill system

Home printers

Includes ink to print up to **14,000** pages³

Business printers

Includes ink to print up to **13,300** pages³

INK TANK
PRINTER
BRAND SOLD
WORLDWIDE

Serious about *SUSTAINABILITY*

Save on energy

Epson's Heat-Free Printing Technology means your printer doesn't need to warm up when switched on so the first page can be printed fast and uses less power consumption compared to a laser printer. You'll get improved reliability, reduced downtime and less environmental impact⁵.

Built to last

With an EcoTank you're investing in a great product that's built to last. Special features prevent the ink nozzles getting clogged and Heat-Free Printing Technology means the printhead will last the lifetime of the printer so you can benefit from no unnecessary replacement parts or upgrades.

Zero cartridge waste

The ultra-high-capacity ink tanks on an EcoTank printer are refilled with ink bottles so you'll never be replacing cartridges. One set of ink bottles is equivalent to 3 years' worth of printing⁶!

AND CHILL*
Usain Bolt

PRINT ON THE GO with the Epson Smart Panel app

For families on the go, or for businesses that never stop, the Epson Smart Panel app enables you to control your printer from your smart phone or tablet[®]. You can print, copy and scan documents or photos, set up, monitor and troubleshoot your printer, or just let your creativity flow with a wide range of artistic templates.

Look out for the Smart Panel symbol which shows which printers are compatible with the app.

Big bottles *LOADS OF INK*

Our innovative EcoTank range delivers an unbeatable cost-per-page saving you up to 90% on ink costs⁹.

With one set of ink bottles you can print thousands of pages without the hassle of frequently changing cartridges. With up to 3 years of ink included in the box⁶, you can just fill and chill!

EcoTank for **BUSINESS** **GOODBYE TONERS**

Our range of EcoTank printers are ideal for small businesses. This range provides ultra-fast printing at an ultra-low cost per page, as well as integrated high-capacity ink tanks that reduce the hassle of replacing cartridges or toners.

Save with lower printing costs

A cost effective solution for businesses, this series allows you to print over 350 pages in black for just €1.00¹⁴.

High-speed versatility

This EcoTank range is perfect for fast-paced environments with print speeds of up to 25ipm¹³, first-page printout in as little as 5½ seconds¹⁵, ultra-fast double-sided printing and rapid ADF.

Designed for businesses

Look forward to high-quality printing with all pigment inks which are smudge and highlighter resistant. With large touch screens and wireless connections to smart devices, this EcoTank range has it all.

GOODBYE TONERS

Ultra-low-cost printing

From the start you have enough ink to print up to 11,000 pages⁴, cutting costs and saving time as you're not frequently changing toner.

Save energy

Cut energy usage and reduce overheads with savings of up to 95% in power consumption compared to mono laser printers¹⁶.

Save time

Printing is fast with no warm-up time, first print out in as little as 6 seconds¹⁵ and print speeds of up to 20ppm¹³.

Peace of mind

Giving peace of mind, every EcoTank mono printer comes with a 1-year/100,000-page warranty, and a 3 year extended promotional warranty with sign up. Terms and conditions apply⁷.

1. As of 31st March 2023. IDC, Quarterly Hardcopy Peripherals Tracker, Q2 2022 to Q1 2023 shipments, published Q1 2023. 2. As of 31st January 2024. Cumulative sales of Epson ink tank printers since launch in 2010 based on Epson internal shipment data. 3. Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test Patterns provided in ISO/IEC 24712 or 29103. Quoted yields are NOT based on ISO/IEC 24711 or 29102. Quoted yields may vary depending on the images that you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set will be lower. 4. Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test patterns provided in ISO/IEC 19752. Quoted yields are NOT based on ISO/IEC 24711. Quoted yields may vary depending on the images you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set can be lower. 5. Based on Epson calculations, Epson EcoTank consumer home and home office printers use less energy compared to the average energy of the 5 best-selling A4 1-20ppm colour multi-function laser printers in Europe (IDC, Quarterly Hardcopy Peripherals Tracker, 2022 shipments, published Q2 2023). Power consumption values as published in the manufacturers' official specifications. 6. Based on print volume of 100 A4 pages per month and the lowest yield produced from the included set of inks. Excludes photo and business models. 7. Terms and conditions apply. For warranty details please check the product page on your local Epson website. 8. Mobile printing solutions require a wireless and/or an Internet connection to the printer. For a list of Epson Connect enabled printers, compatible devices, apps and ways to connect, visit www.epson.eu/connect 9. Based on Epson calculations, the average cost per page saving and the average number of inkjet cartridges required to print the same number of pages as the Epson EcoTank "101" and "103" ink bottles. Comparison between the average yield (A4 prints of ISO/IEC 24712 test pattern) of EcoTank "101" and "103" bottle series and the genuine consumables (IDC, Hardcopy Peripherals Consumables Tracker, 2021 shipments, published Q1 2022) used within the 10 best-selling consumer A4 inkjet cartridge printers in Czech Republic, Hungary and Poland (IDC, Quarterly Hardcopy Peripherals Tracker, 2021 shipments, published Q1 2022). Cost per page calculated by dividing the relevant bottle/cartridge average selling price as tracked by IDC by the yield. 10. In the L3550, L3560 and L5590 models the ratio of the amount of recycled plastic weight to overall plastic component weight of the hardware. The amount of recycled contents and recycled material varies depending on the model, manufacturing time and site. Stated quantity represents the equivalent weight of the portion of recycled plastic (30% of total plastic content, 750g) used in the manufacture of the L3550, L3560 and L5590 models. The amount of recycled contents and recycled material varies depending on the model, manufacturing time and site. 11. AirPrint-enabled printers work with iPhone 4s and later, iPad 2 and later, all models of iPad Air and iPad mini, and iPod touch 5th generation with the latest version of iOS, and Mac with the latest version of OS X. 12. For test conditions, please visit www.epson.eu/testing. 13. Determined in accordance with ISO/IEC 24734 showing the average of ESAT from the Office Category Test for default simplex. For more information visit www.epson.eu/testing. 14. Number of pages printed is based on the highest cost per page (CPP) of Epson 112 ink bottle ranges. CPP is calculated from the total combined price of cyan, magenta and yellow ink bottles RRP's for colour pages or the black ink bottle RRP's for black pages, divided by the published page yields. RRP correct as of March 2024. 15. First-Print-Out-Time (FPOT) measurement method: ISO/IFC17829 Office Category Test; paper size A4. A set of Microsoft Word, Microsoft Excel and PDF files (each set containing 4 pages) is continuously printed. Measurement is based on the average time for the first of four single-sided prints to exit the printer. Measurement starts when the print button is pressed and ends when the first page of the set exits. 16. Based on Epson calculations, the average power saving of the Epson EcoTank mono range of printers compared to the 20 best-selling 1-20ppm cartridge-based mono laser printers in Czech Republic, Hungary, Poland and Turkey (IDC, Quarterly Hardcopy Peripherals Tracker, 2020 shipments, published Q1 2021). Comparison based on the average power when printing/copying. Power consumptions taken from the manufacturers' official specifications. 17. Based on Epson calculations, the average cost per page saving and the average number of toner cartridges required to print the same number of pages as an Epson EcoTank "110" ink bottle. Comparison between the yield (A4 prints of ISO/IEC 19752) of the EcoTank "110" bottle and yield of the genuine consumables (IDC, Hardcopy Peripherals Consumables Tracker, 2020 shipments, published Q1 2021) used within the 20 best-selling 1-20ppm cartridge-based mono laser printers in Czech Republic, Hungary, Poland and Turkey (IDC, Quarterly Hardcopy Peripherals Tracker, 2020 shipments, published Q1 2021). Cost per page calculated by dividing the relevant bottle/cartridge sales revenue and the total yield by the unit sales. Cost per page calculated by dividing the relevant bottle/cartridge average selling price as tracked by IDC by the yield.
