The benefits of Heat-Free printing technology

PRECISIONCORE
HEAT·FREE

Save time with ready-to-go printing

No heat also means no warm-up time when the printer is switched on or woken from sleep. It starts printing immediately.

Reduced power consumption saves energy

Heat-Free printing technology lowers the need for power because it doesn't use heat to warm up.

Fewer parts to replace, lower environmental impact

Laser printers have drums, transfer belts and fuses that can require periodic replacement. Inkjet printers feature none of these parts, avoiding the need for their replacement.

Reduced maintenance

The Heat-Free structure of Epson inkjet printers means that there aren't as many parts that can wear out, which means less maintenance intervention.

Laser printing process

Typically this is a complex process involing separate stages. It requires preheating the fuser, and again uses heat to fuse the toner to the paper.

Laser printers → Receive print job → **Uses heat** Preheat the fuser → Charge the photoreceptor drum → Laser exposure → Development → Toner transfer → **Uses heat** Fusing → Print out
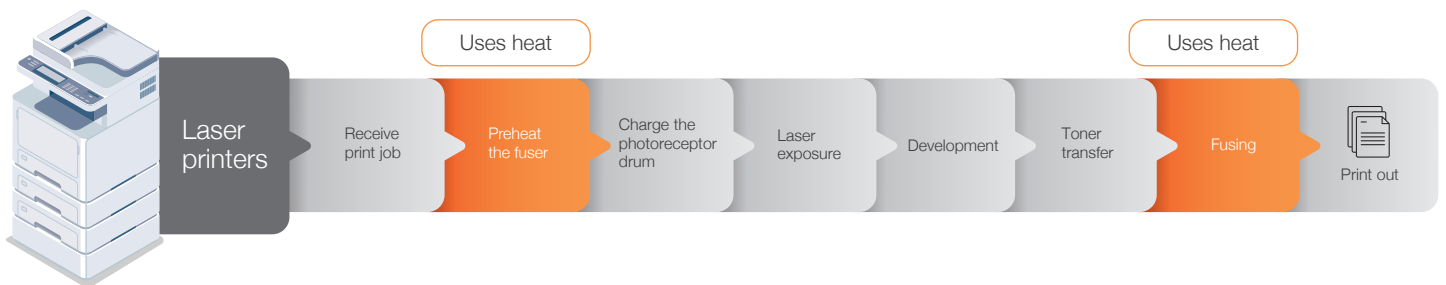

Inkjet printing process

This method is comprised of only three stages to achieve a printout.

Epson Inkjet printers → Receive print job → **Heat-Free** Piezo ink ejection → Print out
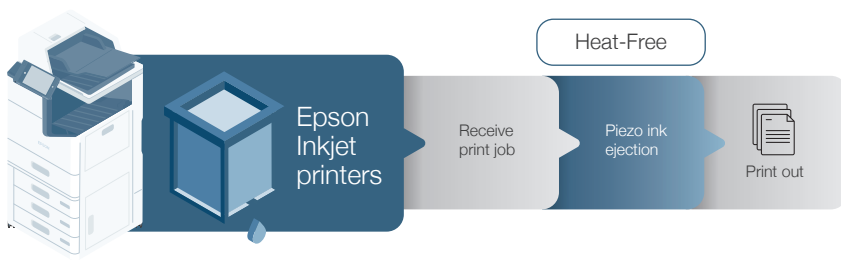

Connecting business wherever you are

Epson offers professional and affordable solutions for remote workers and enables safe social distancing in office spaces.

Flexible solutions for every space

Epson's wide range of innovative and easy-to-use multifunction printers allow users to remain productive without compromise. Enable safe social distancing in the workplace and work with ease at home.

Making the most of printer fleets

Navigating the challenges of social distancing in the office environment is made easier with Epson printer fleets. A fleet of decentralised desktop A4 printers will help create a safer workplace. Not only will this reduce touchpoints between staff, it could also improve employee productivity, with less waiting time for prints to be delivered. The management and monitoring of those devices is simplified with Epson Device Admin. Service partners benefit from Epson Remote Services to remotely analyse the potential issues, and therefore provide a faster service, maximising device uptime.

Where centralised printing zones is required in the office, Epson has simple and smart software solutions that will instantly make the workplace a safer space. Epson Print Admin and Pull Print features only allow prints to be released from print queue once the sender is physically there to retrieve them, limiting pages left in the print tray that others handle and search through.

Plus, you can set up contactless printing. Simply swipe an ID card to the release process and remove the need to touch the printer.

The Advanced Workflows functions enable administrators to easily create scan profiles with document capture, processing and delivery to predefined destinations, including Cloud storage services. The automated capture enables the creation of Searchable PDF, PDF/A in 29 languages, job separation with barcodes, folder and documents naming with Zonal OCR, barcodes, skip blank pages, and much more.

Business imaging solutions

Discover how Epson and its partner solutions take advantage of our printers to meet the needs of businesses from SMBs to large enterprises, and can be adapted to suit vertical market needs.

Fleet management

Epson Device Admin (EDA)

Control, analyse and manage your printer fleet centrally from one intuitive interface, designed to increase productivity, reduce costs and ensure maximum security.

Mobile and cloud printing/scanning

Epson Connect

Print and scan from anywhere with Epson Connect. Produce documents with ease, whether you're at home, in the office, on your mobile or on the other side of the world.

Epson iPrint Mobile App

Print to an Epson printer from practically anywhere and any time using your smartphone or tablet PC – Epson iPrint makes it really easy. Just download and install this great free app and you're ready to print web pages, Microsoft Office documents, photos and PDFs, as well as scan and copy.

Epson Email Print

Print from any device such as phone, tablet or laptop, anywhere in the world, by simply sending an email across the internet to the printer.

Epson Scan to Cloud

Scan documents directly to email addresses or cloud storage accounts (SharePoint Online, OneDrive for Business, Google Drive, Dropbox, Box and Evernote).

Epson Remote Print Driver

Advanced printing from anywhere using your computer.

Remote Service and Support

Epson Remote Services (ERS)

Epson's cloud-based device monitoring and management system helps your service provider to perform accurate remote diagnosis without compromising on the security. Arm service technicians with the information they need to achieve higher first fix rates and increase your device uptime.

ERS embedded agent

Benefit from the added value of ERS in combination with the embedded agent for a seamless setup and use.

Epson Smart Panel

Epson Smart Panel
Innovative app to easily manage select Epson® printers and scanners.

Workflow and security

Epson Print Admin (EPA)
Boost productivity and monitor print usage via a server-based solution that creates a secure printing, scanning and copying environment through user-authentication.

Epson Print Admin Serverless (EPA Serverless)
Seamlessly integrate devices into your security and compliance rules and regulations, without the burden of maintaining a server system.

Document Capture Pro (DCP)
Scan, save and share information easily. Advanced features for naming, separating and routing documents makes scanning simple and logical.

DCP Enhanced OCR
Boost DCP with the Optional DCP Enhanced OCR for MFP to benefit from a high OCR recognition rate.

Document Capture Pro Server (DCPS)
For our supported devices, with Document Capture Pro Server administrators can manage push scan functions without installing software on individual computers.

Third party integration

Epson Open Platform (EOP)
Gain complete control of your printing operations via a web-based application that enables you to adapt your printer to meet specific and changing business requirements with solutions that help you better manage your printing.

Epson Solutions Suite

For more about Epson solutions please visit
https://support.epson.net/stories/en/

Other Embedded solutions

Embedded OCR

Easily create Searchable PDF files at a touch of a button without any software.

Print sets

Print sets' provide a solution to sorting printouts and the number of pages in print set.

Erase Red colour

Erase red colour copy erases any items that is red on the document.

IP-fax

IP-fax is a fax technology that transmits data over IP networks.

DURABrite Ultra Ink and DURABrite Pro Ink

Epson's business inkjet printers use high-quality – ISO 11798:2000 certified[1] – DURABrite Ultra Ink and DURABrite Pro Ink that deliver business-quality prints that are water, smudge and highlighter resistant. With printing costs being a big concern for any business, Epson also offers a choice of cartridge sizes designed to suit the way you print.

Business quality documents
Laser-like text and graphics on plain paper.

Perfect prints
Enhance printed materials with high-quality graphics.

More choice
Print on a wide range of paper, including high impact colour on glossy media.

[1] DURABrite Ultra Ink and DURABrite Pro Ink have been certified ISO 11798:2000 by Research Institute of Sweden (RISE). For more information visit www.ri.se

Business inkjet product overview

WorkForce Enterprise: Fast and efficient

Print high-quality documents with this reliable and environmentally-friendly departmental colour and mono A3+ business multi-function printer (MFP) range.

WorkForce Pro A3+ RIPS: High yield printing

Discover our Replaceable Ink Pack System (RIPS) technology for super high-yield printing with minimal waste.

WorkForce Pro A3+ colour: Stay connected

Perfect for businesses of all sizes, A3+ colour printers with GigaBit Ethernet connectivity are ideal for enterprise integration.

WorkForce Pro A4 RIPS: Less waste

Epson's latest A4 Replaceable Ink Pack System (RIPS) products offer exceptionally high ink yields, low total cost of ownership (TCO) and a low environmental impact.

WorkForce Pro A4 colour: Low environmental impact

Reliable, connected and flexible, our WorkForce Pro business printers boost productivity and deliver low energy consumption and fast speeds.

WorkForce Pro A4 mono: Packed with features

Feature-rich A4 mono printers with duplex printing, Ethernet connectivity and fast print speeds.

EcoTank Pro colour: Extremely low TCO

With an extremely low TCO, this reliable colour printer also offers an easy-access, no-spill, no-mess refill system.

EcoTank Pro mono: Lower costs

EcoTank business printers deliver an extremely low TCO in a user-friendly and compact design.

Document Scanners

Create a better business environment with the support of a global leader in scanning solutions. Built with performance at its heart, the Epson document scanner range is the ideal solution for high performance and high volume scanning.

■ Compact scanner range

Offer an all-in-one scanning solution for anyone who has limited desk space and needs to scan various types of media and documents.

Built to balance the scale between power and convenience, these highly versatile scanners empower businesses of all sizes to do more with less and reap all the benefits of an ultra-compact scanner without having to sacrifice precious office desk space.

– **Ultra-compact** Smallest footprint, even while in use

– **Versatile** Scan passports, receipts, invoices, cards and more

– **Two-in-one** U-turn pass and straight pass

– **Lower environmental impact**

■ Mobile scanner range

Featuring some of the lightest products in their class, these scanners are ideal for scanning on the go, and keeping productivity high.

– Lightweight

– Automatic document feeder

– Wi-Fi and Wi-Fi Direct

– Built-in Lithium Batteries

– Correct document skew

■ Sheetfed scanner range

Built with performance at its heart, the Epson sheetfed business scanner range is the ideal solution for organisations adopting hybrid working practices, while maximising productivity.

– High-speed ADF scanning with duplex

– Versatile media handling

– Wi-Fi and network options

– Onboard sensors to prevent errors

– Automatic paper size detection

■ Flatbed scanner range

The flatbed range quickly and easily scans documents of any shape or size. Ideal for scanning irregular shapes or fragile items, as well as books and bound media.

– A4 and A3 duplex solutions

– High-speed ADF scanning with duplex

– Scan up to 8,000 pages per day

– Network versions

– Automatic paper size detection

The Epson scanner range is built with performance at its heart, and this is reflected in built-in technology that makes it even easier to digitise files quickly and securely.

Epson's ScanWay models have network sharing functionality and support PC-free, standalone operation. This simplifies job workflows and enhances security, as no data is left on the PC.

ScanWay

ScanWay provides simple, reliable, and secure scanning solutions for scanner operators and administrators.

– Scan to[1] network folder, email, cloud, and USB stick[2] to make digitising and organising files easy.

– Additional shortcut buttons[3] and panel customisation[4] makes individual job identification simple, even if a large number of people share the device. Improving productivity and eliminating manual routing errors.

– User authentication[2] functionality allows multiple users to share scanners ensuring personal job profiles are instantly accessible for optimal efficiency.

PaperCare

Sometimes, the documents you need to scan have suffered damage, such as scratches, folds, wrinkles and tears. Or they might be thin paper, thick paper, or even booklets. When scanning these documents, there is a risk that paper jams will occur, damaging the documents further. Epson's PaperCare technology reduces these risks, and protects your important documents.

Effortless integration and sharing

Epson scanners are designed for seamless integration into your IT environment with industry standard TWAIN, WIA and ISIS driver support.

With Epson Document Capture software, create dynamic workflows for those in the office or working from home, by scanning and sharing documents to network folders, SharePoint, cloud services or via email. It enables collaboration to all stakeholders regardless of location.

With our Wi-Fi Direct™ solutions, users can control business scanners with Android and Apple mobile devices through the Epson DocumentScan app. Simple solutions for agile workers and hot-desking.
