Elevate your brand with striking prints

EPSON®

Optimised performance with enhanced colour capabilities

The Epson SureColor F9500 and SureColor F9500H are 64-inch compact dye sublimation printers offering high-quality precision printing. These versatile printers are ideal for any business looking to create vibrant sportswear, fashion, soft signage and home decor products.

The compact design reduces printer footprint, while the larger printhead enables increased productivity. 1.6L ink packs with hot-swap functionality reduce downtime. Plus, an enhanced suite of colour options improves versatility, setting you up for a wide range of business opportunities.

Big business impact. Small footprint.

A larger 4.3-inch touch panel ensures easy-to-read information and simplifies printer operation.

Flat top design with transparent cover allows for quick print-status checks.

User-replaceable printhead.

Epson Cloud Solution Port allows printer operating status to be monitored and managed remotely via the cloud.

Nozzle Verification Technology (NVT) and Part OverLap (POL), teamed with the rear media cleaner, ensure consistent and reliable performance.

Accurate and stable automatic take-up unit enhances productivity.

Media lifter allows a single person to easily replace media.

Compact, high-performance dye sublimation printers

Increased productivity
2.64-inch PrecisionCore MicroTFP printhead allows for increased print speeds when compared to previous models. Larger 1.6L ink packs with and hot-swap capabilities reduce printer downtime.

Exceptional image quality
The SureColor F9500 and F9500H exceed expectations when it comes to quality, using UltraChrome DS inks. The F9500H offers additional configurations, including fluorescent inks for vibrant applications and light colours for reduced graininess. Orange and Violet increase the colour gamut by up to 20% and can reduce ink consumption vs CMYK.

Easy to use
A large, user-friendly touchscreen displays key information such as ink levels, print status and remaining media. The media lifter enables a single user to load media, while the nip lever aids setup by securing the media from the back of the printer. For registered Epson Cloud Solution PORT users, the easily replaceable printhead removes the need for special tools or service callouts when connected.

Reliable performance
Epson provides the total solution, combining state-of-the-art printing technology, consumables and Epson Edge Print Pro software. Plus, Epson Cloud Solutions PORT supports seamless monitoring and efficient management, ensuring proactive maintenance and timely replacements.

A range of applications

Fashion – print repeating patterns across the width of the roll, before applying to fabric with a heated calendar press, ready for cutting and finishing.

Sportswear – print panels to your transfer media and apply using a calendar press, before cutting and finishing.

Homeware – create and personalise home products, soft furnishings, and gifts with ease.

Soft signage – print artworks to size and finish with edging, eyelets, and other components.
