

BRING PEOPLE, PLACES AND INFORMATION TOGETHER

TURN PRESENTATIONS INTO CONVERSATIONS, IDEAS INTO CREATIONS, AND EFFICIENCY INTO PRODUCTIVITY

CREATE, COLLABORATE AND SHARE

People retain less than 20% of what is presented to them on slides¹. Instead, employees benefit from the practicality of hands-on demonstration, the productivity of digital interaction, and the efficiencies of remote interaction.

That's why Epson meeting solutions are naturally intuitive and easy to use, allowing users to interact with people and content in a way that's right for them – whatever mobile device they're using.

Create: Annotate and capture notes on screen with finger-touch or digital pen

Collaborate: Connect and present wirelessly from almost any device using split-screen functionality

Share: Print, email and save meeting notes, and easily access local and network files

TURN MEETINGS INTO ACTIONS

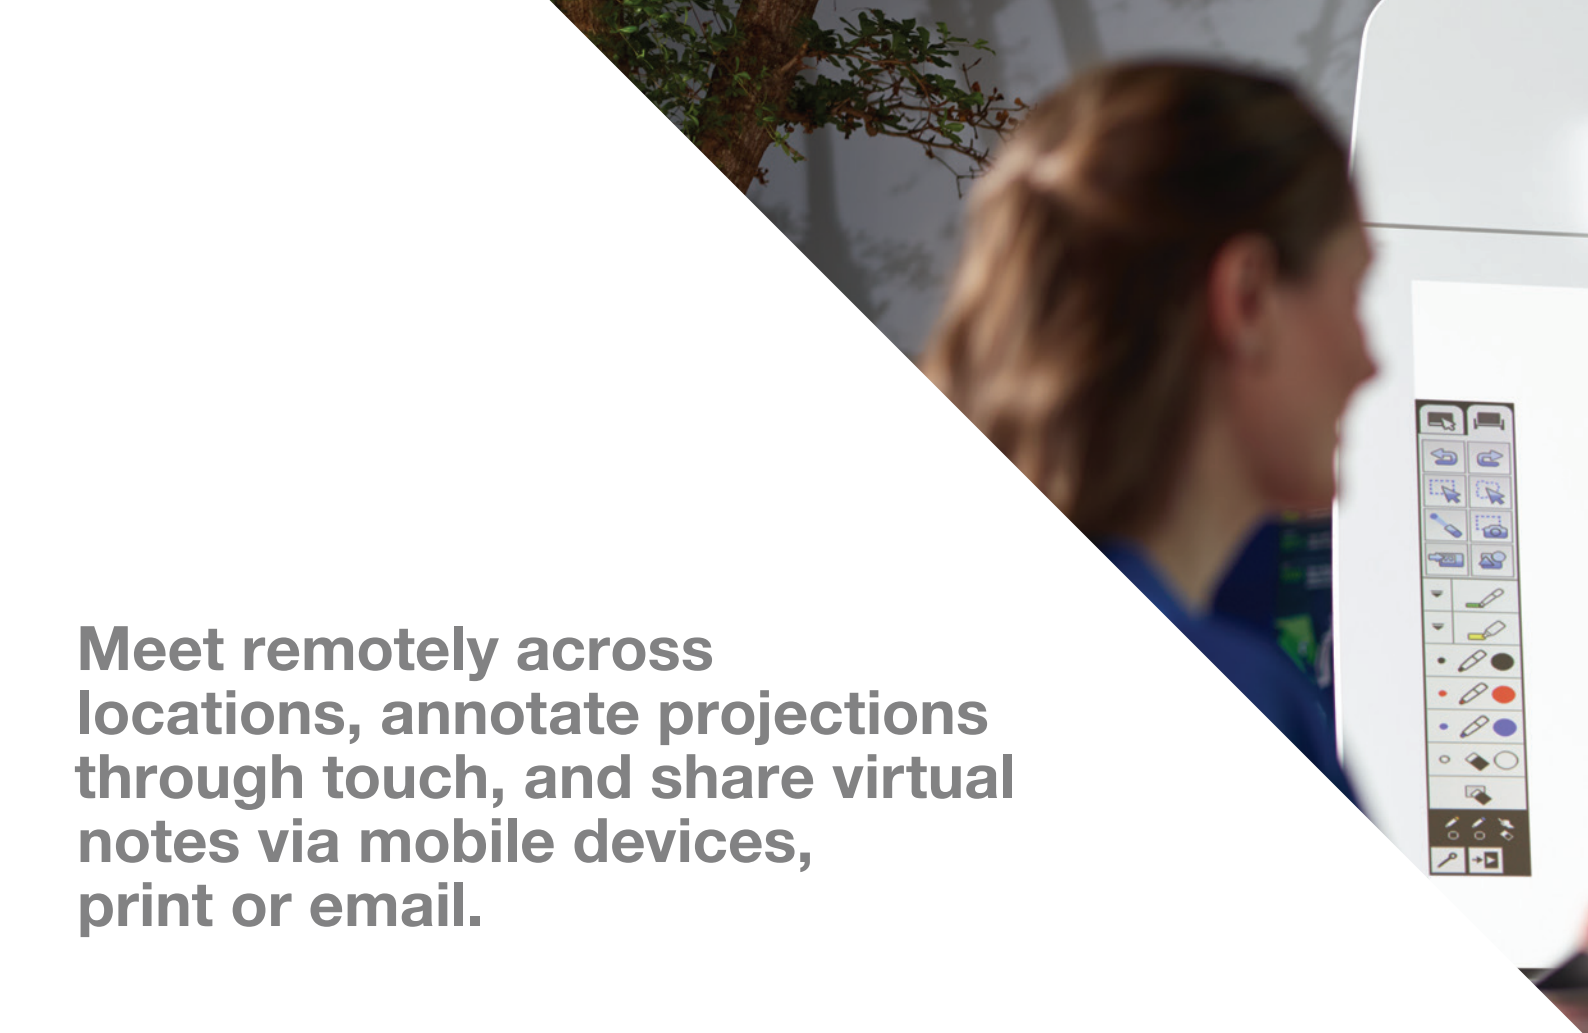

For business communications to be effective now and in the future, everyone involved should be able to actively contribute and collaborate – regardless of location, how they choose to interact, and the device or applications they prefer to use.

Employees cite inefficient meetings as the single biggest cause of wasted time³, so our aim is to help you be productive in every meeting – with solutions that enable you and every other attendee to organise your thoughts, and communicate your ideas quickly and easily.

From using familiar applications, to creating, printing and sending digital notes, our interactive projectors are simple to use and offer a low total cost of ownership – an all-in-one solution that eliminates the need for multiple additional resources such as whiteboards and flipcharts. They're also adaptable enough to scale up to a larger screen size, and are only a fraction of the cost of traditional meeting solutions.

**“During 2015,
the mobile
workforce will
represent 37%
of the global
workforce⁴.”**

Meet remotely across locations, annotate projections through touch, and share virtual notes via mobile devices, print or email.

EPSON'S AFFORDABLE MEETING SOLUTIONS ALLOW YOU TO:

GO BEYOND THE BOARDROOM

Modern working environments call for productivity tools that will adapt as you do – because today's meetings are no longer confined to boardrooms. Epson's affordable, compact solutions allow you to transform almost any room into a collaborative space that promotes creativity and productivity:

- Works and fits perfectly in large meeting rooms, personal offices or any other collaboration space – not just the boardroom
- Optimises interaction with a screen that's scalable up to 100"
- Combines the benefits of flipcharts, whiteboards and conventional projectors into one unified meeting solution
- Allows for easy installation with a lightweight design

ENABLE REMOTE WORKERS

During 2015, the mobile workforce will represent 37% of the global workforce⁴. As employees increasingly work remotely, meeting rooms must become more flexible, virtual and connected. With Epson's cost-effective meeting solutions, the user experience is seamless across locations and resources:

- Enables greater involvement and productivity for remote workers
- Allows four different groups to share, annotate and discuss the same content from anywhere
- Supports split screen functionality between content and video conference
- Reduces the need for IT support and intervention with simple controls

UNIFY YOUR COMMUNICATIONS

Extending your Unified Communications strategy to your meeting rooms is a fast track to efficiency. Epson's meeting solutions are cost-effective and scalable, and designed to extend across your business easily – integrating with all UC platforms, video conferencing hardware, and critical business applications:

- Provides a building block for productivity, with less time needed for setup before each meeting
- Offers the ability to share displays with any business or communications application
- Requires no server support, systems training or licence fee
- Ensures information remains secure with the ability to apply passwords to meetings and notes

“Employees in workplaces that provide shared spaces for collaboration report higher measures of performance⁶.”

EB-1400 Series

Epson's EB-1400 Series enables collaboration between people, wherever they are. They are the perfect alternative to conventional whiteboards, flipcharts, expensive digital screens and more – in one simple device.
