EPSON®

Why Epson?

From education and art galleries to digital signage and corporate events, from in-house projector fleets to the rental and staging market, our projectors are the smart, advanced solution.

Discover over 20 years of projection leadership

Epson celebrates two decades as the global leader in projection technology, driven by continuous innovation, customer focus, and industry-leading 3LCD technology. From compact LCD breakthroughs to high-brightness laser projectors, Epson has consistently adapted to evolving market needs—enabling vivid, flexible, and immersive experiences across business, education, and entertainment spaces.

Experience cutting-edge technology

Our 3LCD technology is what sets us apart and it is at the heart of every Epson projector. This solid-state optical technology produces superb, bright, true-to-life colours. Furthermore, our 3LCD optical engine does not produce a rainbow effect, so it is easier on the eye and looks just as perfect on camera.

Choose sustainable solutions

When it comes to waste, emissions and environmental impact, less is always more.

We make it easy to understand the environmental emissions of our projectors and our commitment to sustainability.

With our online CO₂e emissions calculator you can discover the CO₂e emissions of our projectors in just a few clicks. And with our display power comparison calculator you can compare energy savings and operating costs across our projector range. www.epson.eu/sustainability-projectors

We have achieved certification by TCO Certified² for selected families of projectors. TCO Certified is the world's most comprehensive sustainability certification for IT products, which must meet life cycle criteria for social and environmental sustainability.

Equal White (WLO) and Colour Light Output (CLO)

White brightness alone cannot bring the true colours you see everyday to life. That's why the 3LCD technology found in Epson's projectors delivers an equally high WLO and CLO.

CLO is a metric that measures a projector's ability to deliver colour. Developed by colour scientists using the same approach as WLO (Brightness) measurement, CLO provides a simple, accurate and easy-to-understand way to evaluate projector colour performance.

Epson projectors deliver consistently true-to-life images and rich colours that are up to three times brighter than 1-chip DLP projectors³.

Laser light source

Experience astonishing quality and reliability with Epson's laser light source projectors. With the continuous development of our laser light source, phosphor components and LCD panels, Epson is able to push the boundaries of the brightness, efficiency and image quality achievable with projection. Delivering consistent, long-lasting performance and up to 20,000 hours without maintenance, or even longer in extended modes.

4K Crystal Motion

In a world first, 3LCD and dual-axis shifting technologies have been combined to achieve a native 4K 3840 x 2160 on-screen pixel count with stunning clarity. The e-shift device operates with incredible precision to ensure maximum image sharpness. Combined with ultra-fast 240Hz frame processing, 4K video playback is smooth and supports up to 120Hz image input and output.

4K PRO-UHD

4K PRO-UHD⁴ delivers a bright, amazingly sharp lifelike picture by combining advanced Epson technologies with the ability to accept native 4K content and upscale non-4K content exceeding Full HD resolution.

Wirelessly stream and share

Our projectors have comprehensive support and connectivity to match any installation requirements. Our dedicated apps and software ensure seamless connectivity, including wireless connectivity for easy screen mirroring, content sharing and multi-device collaboration.

Apple AirPlay 2⁵

Easily mirror or cast your iPhone, iPad or Mac wirelessly with support for multiple connections, low-latency streaming, and quick setup - perfect for classrooms.

Miracast

Wireless screen mirroring from supported Windows and Android devices, no cables or internet required. Ideal for streaming HD video and audio.

iProjection app (PC / Mac / iOS / Android / ChromeOS)

Wireless screen mirroring solution that utilises the built-in Wi-Fi connection of the presenter's device to stream and share content to the projector. Up to 50 devices can be connected to the same projector and up to four can present their content at the same time. The built-in moderator mode (exc. Chromebook) allows one user to take control of incoming content from the connected devices.

Interactivity and collaboration

Classroom Connect (PC / Mac / iOS / ChromeOS)

An intuitive app that makes it easy for teachers to deliver their lessons using an Epson projector.

Start the lesson in seconds with a streamlined process to find and connect to the projector, then start mirroring your screen. When used with an interactive projector, you can annotate your content and save those annotations in PowerPoint format for later reuse.

Content from up to four devices can be displayed simultaneously - the teacher can decide which devices can be displayed via the built-in moderator function.

Image management

Epson Setting Assistant

This app automatically corrects the shape of a projected image by taking pictures with your smartphone camera. By taking a photo of the projected pattern, the app automatically corrects distortion in the projected image and adjusts its shape to match the screen.

Content management

Epson Projector Content Manager

Create playlists using photos, videos, shape filters and effects, which can be scheduled and saved to an external storage device for cableless content playback directly on the projector.

Epson Creative Projection

Create custom content on your smartphone or tablet, with ease. Enliven rooms and product displays by combining your photos and movies with the app's built-in templates and stamps.

Epson Projector Professional Tool

Developed in collaboration with our professional users, this powerful software tool supports the quick and efficient set up and control of complex multi-projector installations on flat, curved and irregular surfaces. Combine with the ELPEC01 camera for assisted stacking, blending, image calibration and much more.

Epson Projector Configuration Tool

This app for smart devices makes setting up and configuring multiple projectors easy. Simply register the projector's data using NFC connectivity, read and edit the settings in the app and then upload the settings to a fleet of projectors without even needing to power the projectors on.

Monitoring and control

Epson Projector Management

This centralised management utility lets IT, facilities and network managers efficiently monitor, control and manage their Epson display solution fleet. The software is also compatible with PJLink certified devices. Functions include operation status, error reporting and input source switching. The scheduling feature can power down all the projectors in a building, while error monitoring helps avoid delays and downtime.

Epson Projector Management Connected

Epson Projector Management Connected offers similar functionality to the Epson Projector Management app, but with the added convenience of accessing and managing all of your projectors via a browser - making the functionality accessible remotely and from anywhere. EPMC Pro is a premium, chargeable solution for advanced projector fleet monitoring and maintenance.

Model specific options

Mobile A/V Cabinet

The ELPCS01 is an elegant solution designed and built by Epson specifically for the EB-810E and EB-815E (separately purchased), offering the convenience and flexibility of a mobile high-quality display of up to 160", which is easy to move and set up wherever it is needed.

Ultra short throw and short throw wall mounts

ELPMB75 for the EB-810E.
ELPMB87 for the EB-815E.

ELPMB62 for the EB-1485Fi, EB-760W, EB-760Wi, EB-770F, EB-770Fi, EB-775F, EB-800F and EB-805F.

ELPMB64 for the EB-L210SW and EB-L210SF.

Finger Touch Unit

ELPFT01 for the EB-760Wi and EB-770Fi.

Finger Touch Unit bracket

ELPMB63 for attaching the ELPFT01 directly to the wall - optional usage depending on installation.

Stacking and rigging frames

ELPMB59, ELPMB76, ELPMB84

Specialist frames designed for the EB-PU and EB-PQ Series for portrait projection, projector stacking and rigging.

A range of supporting options are also available.

ELPEC01 Camera unit

Optional external camera module designed for the EB-PU and EB-PQ Series and ELPLX Series ultra-short-throw lenses.

Unlock advanced features such as colour calibration, simple stacking, simple blending and the camera assist function for curved surfaces.

ELPAF63 External air filter

Optional external air filter designed for the EB-PU1000 and selected EB-PQ2000 Series models. This filter extends the dust resistance and minimises maintenance intervals, even when used in high dust environments.

EH-QL Series options

Vanity board – Champagne ELPVB05.

UST lens cover – White ELPVB02W; Black ELPVB03B; Champagne ELPVB04C.

Document cameras

ELPDC30 Desktop Visualiser

13M pixel camera (4K)
Up to 60 frames per second
A3 shooting area
4K UHD images via HDMI/Miracast
10x optical/23x digital zoom
Kensington lock security
Built-in, easy-to-use carry handle

ELPDC21 Desktop Visualiser

2M pixel camera (1920 x 1080)
Up to 30 frames per second
A3 shooting area
Built-in LED lights
Supports parallel video output and Split screen functionality
1080p images via VGA, HDMI, USB outputs
12x optical/10x digital zoom
Enhanced security with Kensington lock and security bar

ELPDC13 Desktop Visualiser

2M pixel camera (1920 x 1080)
Up to 30 frames per second
A3 shooting area
Built-in LED lights
Supports parallel video output and Split screen functionality
1080p images via VGA, HDMI, USB outputs
16x digital zoom
Enhanced security with Kensington lock and security bar

ELPDC07 Portable Visualiser

2M pixel camera (1920 x 1080)
Up to 30 frames per second
A3 shooting area
Built-in LED lights
USB powered
8x digital zoom

Options

ELPAP10/ELPAP11 Wireless LAN adapter

Upgrade the connectivity of your compatible Epson display solution with this easy-to-install wireless LAN adapter (please check product specifications for compatibility).

ELPCB03N Control and Connection Box

Epson's tailor-made Control and Connection Box is designed to meet the needs of education users. It offers a neat and tidy cable management solution, and is compatible with the Epson education classroom projectors that feature up to 3 x HDMI inputs and an RS232C connection. With large, clearly marked buttons to match those on Epson's projectors, ease of use is assured, allowing presenters to quickly power on and adjust source and volume. Compatible with Epson's 3-in-1 USB Display, the USB signal is also boosted to extend up to 10m.

ELPSP02 External speakers

An optional extra fully compatible with Epson's Control and Connection Box, the ELPSP02 speakers offer powerful 2 x 15W stereo audio support, for perfect clarity even in larger rooms.

ELPSC35

100" Static ALR screen

ELPSC36

120" Static ALR screen

ALR (ambient light reflecting) screens reflect and direct all projected light towards the viewer while absorbing ambient light, improving black levels and contrast

100" or 120" screen for fixed installation

16:9 aspect ratio perfect for modern hybrid working environments

Designed to be wall mounted in meeting rooms
