Versatile labelling

EPSON®
EXCEED YOUR VISION

Designed for a range of environments

Whatever the labelling needs, Epson's label makers and supplies make organisation easy

Whether working in an office, school, retail outlet, medical environment, factory, warehouse or in construction, there is a LabelWorks label maker to help make things more efficient.

Our versatile label makers are compatible with a wide range of Epson supplies[1]:

– LC and LK Tapes up to 9m in length and in widths from 4 to 36mm

– RC Supplies for LabelWorks Pro100, in 50 or 100mm widths

For the organised office and workspace
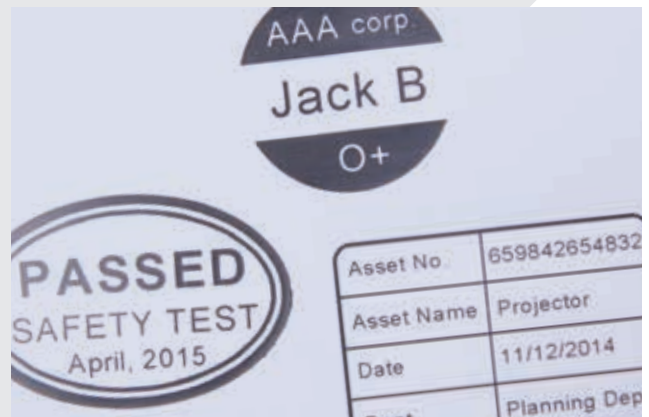

Create and share wirelessly

With the flexible connectivity options of the LabelWorks LW-600P and LW-1000P label makers, it is easy to create labels on the move. Design and recall label templates, print from a computer via Wi-Fi or Bluetooth connection, or download the free Epson iLabel or Epson datacom apps to create and print labels directly from an iOS or Android device.

What's more, with the Bluetooth connectivity of the LW-600P, it is possible to connect remotely without the need for a network – and share the label maker with multiple users.

For app designers, by adding a labelling feature to your application (SDK available) and linking it to our label makers, you can enhance your business solutions and processes.

Personalisation and efficient asset management

Product and schedule management

Designed to meet the most demanding environments

Special label formats and materials for cable identification: vertical and horizontal flag, self-lamination wrap around and Heat Shrink Tubes

Wide signage and security signs up to 400mm width²

Gift wrapping at the POS

Iron-on labels for identification in the workplace

Safety labelling and Pipe marking in industrial environments

Products to suit your needs

LabelWorks LW-300

Office desktop labelling for up to 12mm Tape width

– Electronic label maker with integrated keyboard
– Simple-to-use with high-quality LCD screen
– Inclusive of an internal memory that saves and recalls 30 designs

LabelWorks LW-K400 / LW-K400VP

Versatile and feature-packed handheld label maker for 4mm to 18mm Tape width

– Designed to be productive, making it easy to create and cut multiple labels
– Cost-efficient with reduced tape wastage
– Hard carry case and soft rubber casing protects against bumps and scratches (LW-K400VP only)

LabelWorks LW-600P

Smart labelling for up to 24mm Tape width

– Compatible with Windows and Mac OS PCs as well as iOS and Android devices with Epson iLabel and Epson Datacom apps
– Bluetooth-connected for easy sharing
– Very compact and portable

LabelWorks LW-700

User-friendly label maker for busy offices and mobile users for up to 24mm Tape width

– Effective as a portable device, or when connected to a PC
– Space-saving, with a compact design

LabelWorks LW-900P

Windows/Mac OS desktop label maker for fast, high-quality personalisation for up to 36mm Tape width

– Ideal for office labelling, including filing and asset tagging
– Versatile, with the ability to insert images, barcodes, symbols and borders
– Data import function (csv, txt, and xls/x)

LabelWorks LW-1000P

Networked label maker for up to 36mm Tape width

– Flexible, with a wide range of connectivity options (Wi-Fi LAN/Direct, Ethernet, USB)
– Able to print from Windows and Mac OS PCs as well as iOS and Android devices
– API provided for IT integration

LabelWorks LW-Z700FK

Sturdy industrial label maker offering a full range of productivity-boosting features for up to 24mm continuous Tapes width

– Easy to use with hot keys and Tape detection
– Magnetic attachments, Pick and Print and Drop-Stop features for hands-free usage

LabelWorks LW-Z900FK

Durable industrial label maker designed for demanding environments for up to 36mm continuous Tapes width and Die-cut labels

– Fully loaded with productivity features including hands-free functionality such as Pick and Print and tape detection
– Strong and rugged, with a hard carry case
