Floor space by use (%)

Total build by quarter (€m)

Collaborate and inspire

This quick-start guide will walk you through the key functions of your new Epson interactive display solution, allowing you to get the best out of every meeting. Spend less time setting up, and more time presenting, discussing, and collaborating.

All in one interactive meeting room solution

Project Full HD up to 100" display size

Connect and present wirelessly from your device

Integrate with your current VC solution

Display, combine and annotate on content from multiple sources

Remote whiteboard sharing

Use the whiteboard

Find out more on page 4

Open

Open existing files from the network, or import from a USB device. Present a range of formats without relying on a PC.

Draw

Collaborate with clarity using a range of whiteboard drawing tools. Annotate on-screen content with the interactive pen, or your finger¹.

Colour

Mark your discussion points with multiple colours and thicknesses. Easily differentiate sections of your workings and pull out key elements.

Share, save and print

Find out more on page 6

Share

Create a collaborative meeting around your Epson interactive display solution. Simply share your work with colleagues and collaborate together in real time to produce better results.

Save

Save to a USB device or network. The save function supports a range of formats to optimise sharing.

Print

Send finished work to any printer on your network or save and print content live from collaborative meetings.

Edit and erase

Visualise whatever you can imagine. Import, resize, rotate and move content quickly.

Add pages

Organise your thought process to maximise your productivity. Open a new blank page and import content or just start working.

Display content from any source

Find out more on page 7

Connect a smart device

Share content from your smartphone or tablet with the Epson iProjection app for iOS and Android. You can also share your screen "live" using the screen mirroring² functionality without the need for cables or a network connection.

Connect to and from projectors

Host a meeting and invite colleagues to view your screen. Alternatively, join another projector to view and annotate in real time.

Turn your computer into a large 100" interactive display

View and use your desktop with the interactive pen or finger touch as a mouse.

Sliding split screen

Combine content from multiple sources to create a rich visual experience. Split screen mode allows you to choose your sources to get two screens in one.

Whiteboard sharing

Create a collaborative meeting around your Epson display solution. Share your work and emails with colleagues, view and annotate in real time for an easy workflow.

Use the whiteboard

Opening a file

Use the whiteboard by following these simple steps:

1. Turn projector on
2. Press the whiteboard button on the control pad
3. Turn on the interactive pen
4. Start drawing and bringing your ideas together

Open

Press here to open an existing file from network or USB. The EB-1400 series supports PDF, PNG, JPEG and EWF file formats.

Draw

Use the toolbar to choose a drawing tool

shows or hides the toolbar

shows what your two pens and finger¹ are being used for

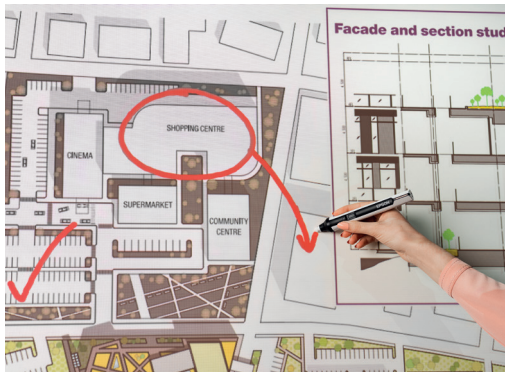

Colour

Select the active colour from the toolbar

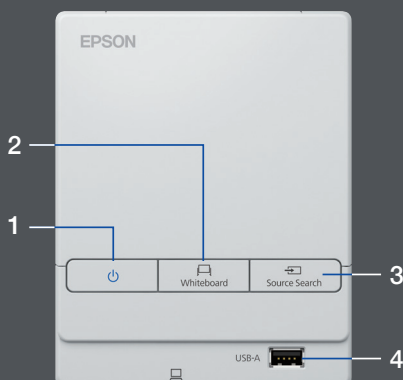

Tap the down arrow next to a pen for custom colours

Adjust the pen thickness with the small and large circles

Annotate on an image

Control pad functions

There are five simple control functions on the control pad:

- 1 Turn the projector on and off
- 2 Select whiteboard mode
- 3 Select source
- 4 Connect a USB storage device
- 5 Connect to USB-B

Modify your work

Edit and erase

 selection area

Use the selection area to crop, rotate, resize, and move content

The top of the interactive pen can also be used as an eraser

 switches to an eraser

 clears all drawings and notes

Create another page

Add Pages

 adds a new page

 deletes the current page

 duplicates the current page

 opens a selection of background templates for the whiteboard

Get help

 Displays a help guide to all the whiteboard icons and what they mean

Share, save and print

Access smart collaboration

Share

Press here, then “Start sharing with this whiteboard”

Use generated pin or create pin

Set authority for other users:

Presentation – other users may view only

Discussion – other users may view and annotate

Collaboration – give other users full access

Work with colleagues remotely

Share via email by pressing here

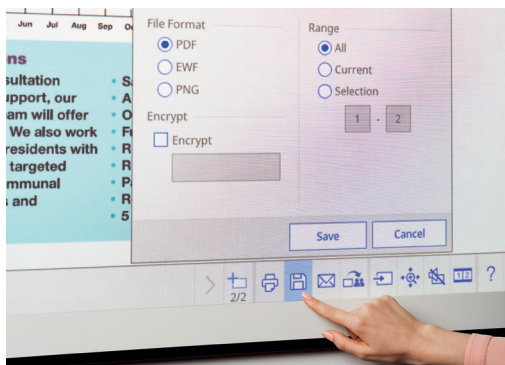

Save

Use this to save the whiteboard to network or USB

The EB-1400 series supports saving to PNG, PDF and EWF file formats

Make a hard copy

Print

Press here to print content directly from the whiteboard

Display content from any source

Connect a smart device

To share content from your smartphone or tablet with functions such as screen mirroring², download the Epson iProjection app.

- 1 Connect your mobile device to the projector's network
- 2 Launch app and select connected projector
- 3 Select the web page, document or photo to project and you're ready to go

Connect to the projector

Project from any source

- ➡ Choose an input source by clicking this icon on the whiteboard or the control pad

Interact with your computer

- ➡ Press source and select PC from the list

Use the interactive pen or your finger¹ to browse the web, access files and more from your computer

Video conferencing

Sliding split screen mode

- 1 2 Press this icon in the bottom toolbar to split the screen in two
- 1 2 Press to choose sources for the left and right of the screen
- 1 2 Press to display two sources side-by-side – even a video conference

Your toolbar reference guide

EB-1400 series

Make meetings a truly collaborative experience with an intuitive, interactive all-in-one meeting space solution. Embrace unified communications, BYOD (Bring your own device) strategies and remove the need for separate whiteboards and flipcharts. Project Full HD content on a scalable screen up to 100", bring colleagues together in person or remotely and enjoy a wide range of features that transform your meetings into new levels of interactivity and involvement.
