

WorkForce flatbed business scanner range

Release the potential of every document

EPSON[®]
EXCEED YOUR VISION

Software

Capture

Document Capture Pro 2.0 enables individuals to scan, save and share information around the business effortlessly. Advanced features for naming, separating and routing documents makes scanning simple and logical. Save and send files like PDF, jpeg, tiff and other formats. Create simple job profiles for one-touch push scanning.

Document Capture Pro Server 2.0 is powerful, server-based software for our network scanners and multi-function devices. It allows administrators to centrally manage job profiles and devices. Intuitively and securely monitor a fleet without having to install software on individual computers.

Enhance

Epson's Document Capture Pro software includes features designed to enhance and improve an original document. This ensures that the best quality is achieved for future data integrity.

Book spine correction

Auto rotate and deskew

Automatic paper size detection

Text enhancement

Separate

Use advanced built-in features to automatically sort and separate batches of paper documents from each other to boost productivity and automate processes.

OCR

1D and 2D barcodes

Patchcode

Pre-defined template

Improve workflows with fast and reliable flatbed scanners

Create a better business environment with the support of a global leader in scanning solutions. Built with performance at its heart, the Epson flatbed business scanner range is the ideal solution for high performance and high volume scanning.

DS-1630, DS-7500, DS-7000N

Range Overview

Compact

With some of the most compact scanners in their class, the WorkForce flatbed scanner range is the perfect solution for where space is at a premium.

High Productivity

With impressive daily duty cycles of up to 8,000 pages, WorkForce flatbed scanners are designed to support the needs of busy workgroups and departments scanning large batches of documents.

Speed

WorkForce flatbed scanners offer production level performance. A3 scanners with speeds of up to 70 pages per minute, or 140 images per minute, help meet the demands of the busiest departments that scan the most challenging media.

Versatility

For the toughest tasks, the flatbed range allows the quick and easy scanning of documents of any shape or size. Books, bound media and fragile items can be included seamlessly into larger batches of documents.

Every detail – captured in confidence

Using the latest software, capture photographs, negatives and X-rays in high resolution detail, and to international standards such as DICOM¹. Reproduce the detail of media with the highest accuracy and then manipulate images for the sharpest results.

Consider...

Expression 12000XL, Expression 12000XL Pro

Streamline your customer facing environments

Ideal for reception environments with a requirement for high efficiency, our scanners are designed to capture documents, forms and public identification for streamlined record keeping. Choose from USB 3.0 or Wi-Fi enabled devices.

Consider...

WorkForce DS-1630, WorkForce DS-1660W

Keep accurate records at all times

Make it quick and easy to keep accurate, complete digital records with scanners designed for bulk and volume scanning environments. Save on document preparation with innovative software features like auto rotate to create perfect digital files.

Consider...

DS-6500, DS-7500

Take control of the scanning process

Packed with advanced features like ultra-sonic double feed detection, users have all the functionality they need to scan high volumes of complex documents in an efficient and productive way. Users can also navigate to job profiles using an easy-to-use panel, ensuring that complicated tasks can be carried out at the touch of a button.
