Release the potential of mobile scanning

EPSON®
EXCEED YOUR VISION

Software

Epson's software suite is a range of easy-to-use solutions for scanning, separating and sending documents around your business and beyond.

Connect

Automatically connect to Wi-Fi enabled devices with the Epson Document Scan App. Preview scanned data and send it directly to applications on a personal device or cloud storage services.

Capture

Document Capture Pro 2.0 enables individuals to scan, save and share information around the business easily. Advanced features for naming, separating and routing documents makes scanning easy – and logical. Save and send files in common formats like PDF, jpeg, tiff and many more.

Enhance

Epson Document Capture Pro 2.0 is designed to do more than just scan and send a document. It features tools that enhance and improve the quality of an original document, ensuring that the best document quality is achieved for future data use.

- Auto rotate & deskew
- Automatic paper size detection
- Text enhancement
- Colour enhance/dropout

Separate

Use the advanced built-in features of DCP to automatically sort and separate batches of paper documents from each other to boost productivity and automate processes.

- Zonal OCR
- 1D & 2D barcodes
- Patchcode
- Pre-defined template
