

Large-format printing isn't just for print houses

Large-format printing is on the

rise

The market is estimated to be worth

£8.27 billion by 2023¹.

High-impact posters, banners and other media are essential advertising elements

Bring large-format printing in house at low cost

With the **SureColor SC-Tx100 Series** printing is more **convenient** | more **on-demand** | more **cost-effective**

Easy to use ✓

A SureColor SC-Tx100 Series printer is ideal if you're new to large-format printing.

Compatible with USB, Ethernet, Wi-Fi and Apple AirPrint™

Supports a wide variety of formats, so no file conversion is needed

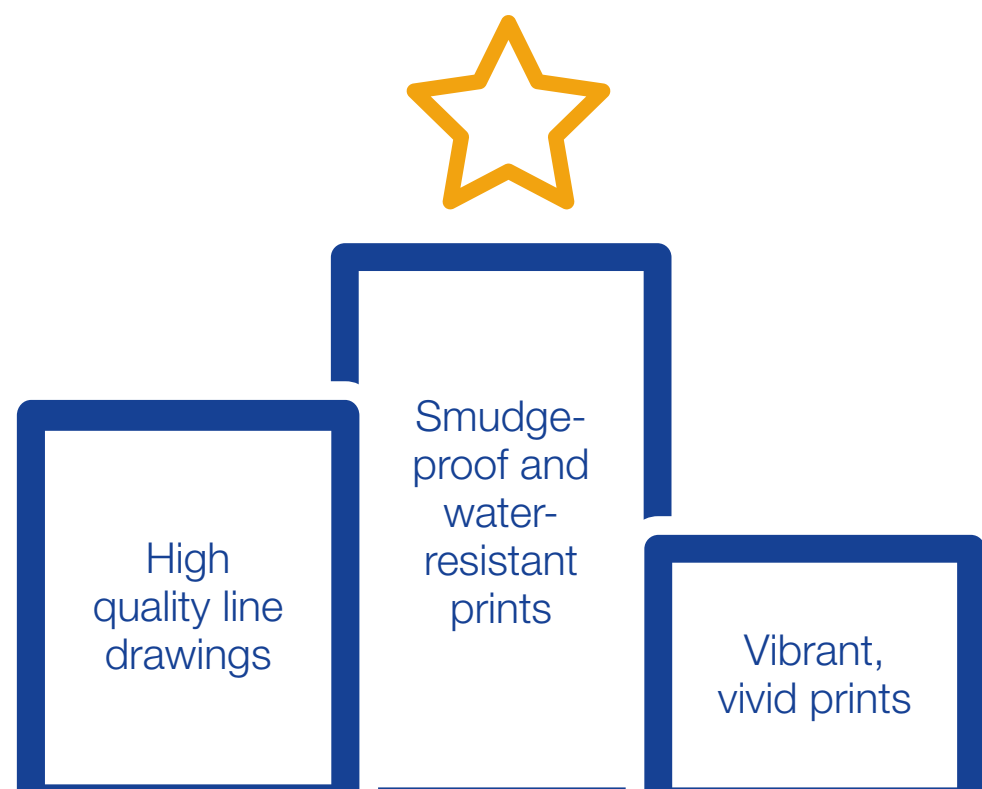

No need for complex manuals, just plug and print

Easy-to-understand touch panel controls

Get **better results** using UltraChrome XD2 pigment inks

- High quality line drawings
- Smudge-proof and water-resistant prints
- Vibrant, vivid prints

Save space

SureColor SC-Tx100 Series has a small footprint

Desktop options available

Built-in sheet feeder to print occasional A4 or A3 prints

Ability to switch from roll to ADF and vice versa automatically

Print on roll media and automatically cut to any size

Save money

Every Epson product is designed to be as efficient as possible, without compromising quality.

Print what you need. There's no need to over order or store spare prints

Replace individual ink cartridges hassle-free, available in a variety of sizes

Enjoy real peace of mind with a 12 month on-site warranty which is extendable up to five years

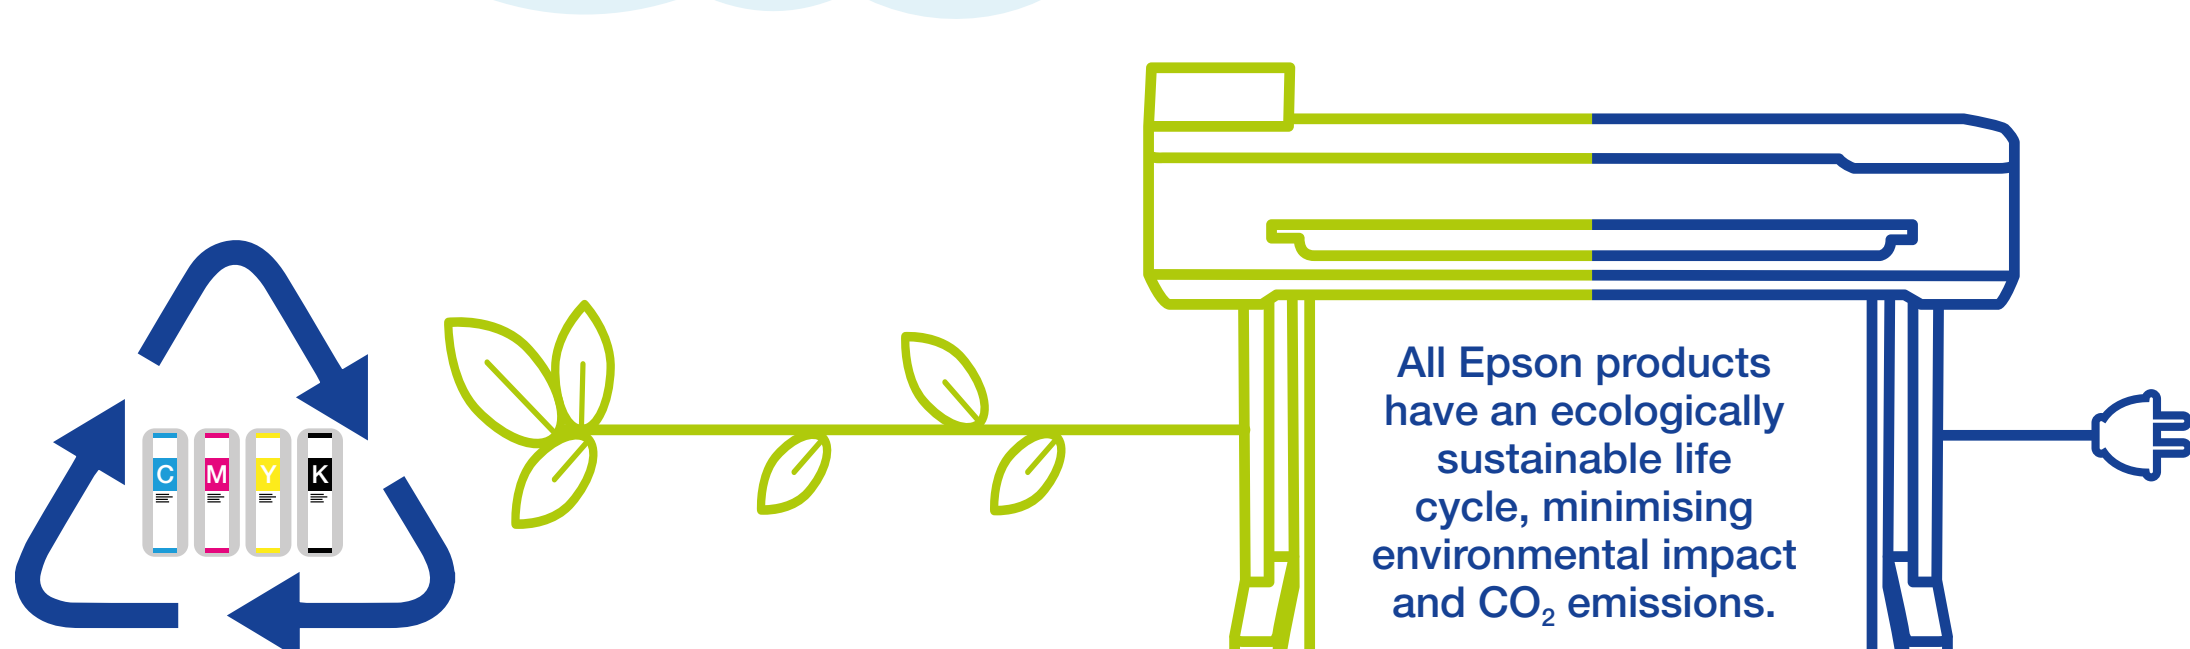

Save energy

Low energy consumption from just **28 watts** for a page

Less power consumption required than laser printers

Reduced carbon footprint by negating the need for delivery of outsourced prints

Recyclable ink cartridges come as standard

All Epson products have an ecologically sustainable life cycle, minimising environmental impact and CO₂ emissions.
