

Control, security and efficiency

Epson Print Admin (EPA) is a server-based solution that creates a secure printing, scanning and copying environment through user-authentication with card readers, logins/passwords and PIN codes.

It also offers additional features such as 'scan and send to me' (email and folder), employee-education notifications and enhanced administrative tools that provide welcome boosts to productivity, environmental goals and efficiency.

Evaluate freely

All the benefits of EPA are yours to enjoy for free – with no time limits – on up to two devices. If you acquire more devices, simply purchase additional licenses.

Administrate easily

EPA offers advanced print, copy, and scan functionality through one web interface. Simple to access and use, this helps you optimise your fleet quickly.

Secure device use

EPA's user authentication protects you from unauthorised access — for secure printing, scanning, and copying.

Enhance productivity

Save time by personalising user interfaces to employee profiles. The "scan and send to me" feature sends scanned documents to authenticated users at the touch of a button. Storing scans to pre-defined folders avoids misrouting and enhances user experience.

Integrate with ease

You can integrate EPA seamlessly into your IT infrastructure, regardless of whether your system is LDAP-based or not.

Reduce waste

With EPA, documents are only printed once the user releases the job at a compatible device. This eliminates the risk of private information being left at a printer, whilst reducing wasted paper, resources and time from unclaimed print.

Educate employees

Set up notifications to educate users about responsible printing to tackle unnecessary full-colour printing at the point of print job creation.

Control and monitor costs

With built-in cost-saving rules EPA puts you in control. Access reports from any web browser, or schedule them to be automatically generated and emailed to you. Use the 'out of the box' report offered by EPA or create reports with custom data. For when there are more demanding needs, benefit from the advanced quotas, credit and billing codes features.

EPA supported languages

English, French, Italian, German, Spanish, Portuguese, Dutch, Russian, Ukrainian, Czech, Polish, Hungarian, Danish, Finnish, Greek, Norwegian, Romanian, Slovak, Swedish and Turkish.

EPA device compatibility

Epson Print Admin works in conjunction with Epson Open Platform – software which allows you to adapt our business inkjets and multifunction devices to suit your needs. Contact your local sales representative for detailed compatibility information or please visit www.epson.co.uk/epa

Business imaging solutions

Discover the complete range of solutions from Epson and our partners and how they work together meet the needs of SMBs and large enterprises, as well as vertical markets. Please visit www.epson.co.uk/bis
