

Epson Print Performance

The bespoke printing service

Flexible and scalable printing

When it comes to printing, it can be a hassle to source hardware, supplies and support. Printing costs can become uncontrolled and administration can be inconvenient, particularly in a distributed fleet with small, separated and distant locations.

Epson Print Performance (EPP) was created to resolve these printing challenges and simplify processes.

Benefit from:

Significant cost savings

Epson Print Performance accurately reduces printing costs by providing a serviced cost per click. Your Click Price includes the cost of supplies, delivery, tracking and an on-site Epson warranty for the length of your contract.

Transparent pricing

Pay for what you print with no hidden costs. When supplies are running low, you will automatically be sent new supplies - all is included.

Simple invoicing

One monthly or quarterly bill from your reseller covering your whole printer fleet helps control budgets.

Full management services and full on-site warranty

Benefit from complete support and peace of mind with automatic ordering - even in distributed, decentralised print fleets. This is coupled with an Epson warranty for the duration of the contract.

Flexible and scalable printing adapted to your usage

A bespoke offer will be prepared by your reseller with your requested contract duration, print volume, type of equipment and your preference on equipment invoicing (purchase or lease). Click Prices are broken down by individual printers.

Safe and secure printing

Epson's dedicated platform infrastructure, coupled with page counting software, automates the process. Dedicated software (DSS) tracks actual print volume, transparently and securely. Large organisations and public administration in Europe are using Epson Print Performance and its page counting software.

Your choice of Epson printers

EPP is available on Epson business inkjet printers.

Simple steps for big benefits

Getting started is quick and easy, and the benefits are vast.

How it works:

- 1** One of our resellers will talk to you about your business goals and help you choose a solution.
- 2** You will sign the contract with the reseller.
- 3** The reseller will install Epson page counting software (DSS) for automatic invoicing and supplies replenishment.
- 4** You will pay one quarterly or monthly bill over your whole printer fleet to control budgets.
- 5** Enjoy the dedicated, expert support of Epson, whenever you need it.

Why Epson Print Performance?

Cost control and savings

Onsite warranty for your piece of mind

Bespoke offers to suit your needs

Automatic supplies replenishment

Exclusive access to a range of tools and software designed to help you manage your business the easy way

Committed to corporate and social responsibility

Epson is committed to developing environmentally conscious products, which means that sustainability is considered from conception to completion. We help customers recognise the environmental gains brought on by technology, whether it is redefining manufacturing through innovative robotics, saving energy with our office printing technology or revolutionising textile printing with digital solutions.

We are committed to all 17 United Nations' sustainable development goals and to the aims of the circular economy. We offer sustainable innovations because we recognise that the choices we make as organisations, individuals or a society will be essential to our shared success.
