

DataMaster Document Imaging Awards 2025

Green Award awarded to Epson PrecisionCore

Epson AM-C550

Our analyses of Epson multifunction printers with Epson's PrecisionCore Heat-Free Technology prove these products' low energy consumption, long consumable lifetimes and their small carbon footprint.

INDEPENDENT LABORATORY
the printing solutions experts

DataMaster Lab is completely independent and objective.

DataMaster Lab is the only European test laboratory specializing in the world of digital printing: printers, photocopiers, MFPs/MFDs, digital presses, and related software solutions. No revenue is derived from testing. All of the **DataMaster Lab** awards are derived from tests carried out by our own test teams.
