

DOCUMENT MANAGEMENT MADE EASY

SOFTWARE SOLUTIONS FOR EASIER DOCUMENT MANAGEMENT

Epson's Document Capture Suite makes it easy to integrate Epson scanners into your document management system. Compatible with all common file formats, document management systems and cloud repositories, Document Capture Suite speeds up your workflow by enabling you to capture, convert and distribute scanned information within your document filing system. Your business will benefit from customisable 'scan to' job profiles, batch capture process with barcode recognition and zonal OCR support.

Document Capture Pro

Ideal for businesses of all sizes, Document Capture Pro integrates into most document management and cloud storage systems, and offers advanced imaging features – including editable file formats and push printing.

- Scans documents into email, print, FTP, web, Microsoft SharePoint®, cloud storage and any document management system
- Exports to Microsoft OneNote using an optional connector available for download from the Microsoft Windows Store

For more information or to download the software, please visit www.epson.co.uk/documentcapturepro

Document Capture Pro Server

Making it easy to integrate document scanners into corporate environments, Document Capture Pro Server enables central management of the scanner fleet and job profiles.

- Workflow automation of batch capture at a touch of a button
- Easy job selection on scanner panel limiting the training requirement for employees
- Scans documents into email, print, FTP, web, Microsoft SharePoint® or any customised workflow process
- Ideal for virtualised IT environment

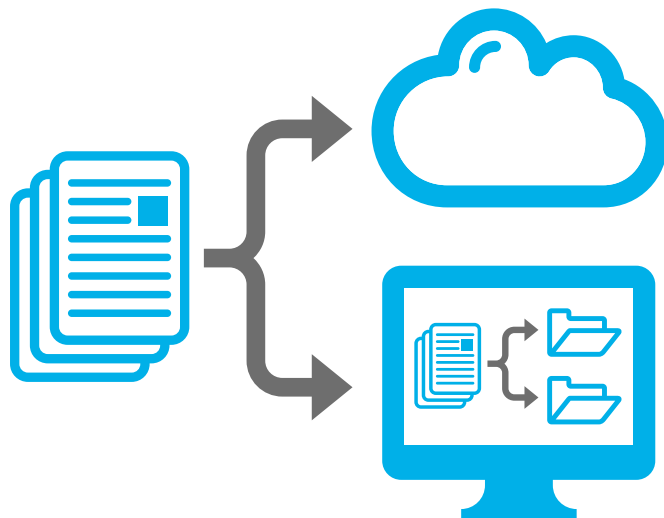

Document Capture

Designed specifically for Mac users equipped with the WorkForce DS-560, Document Capture is compatible with most document management systems and cloud services.

- Powerful document imaging solution designed for Mac users
- Scans documents into email, print, FTP, web, Microsoft SharePoint®, the cloud and any document management system

Easily capture, convert and distribute scanned information within your document filing systems and cloud services. Benefit from advanced document imaging features as well as seamless integration into your IT environment.

Effortless integration and sharing

Epson scanners are designed for seamless integration into your IT environment, with TWAIN, WIA and ISIS driver support and many offering Ethernet and Wi-Fi connectivity. Choose from a range of features and options that make sharing easy.

- Scan-to-Cloud automatically uploads to cloud services
- Scan-to-Email scans directly to an email address or an Epson Connect-enabled printer
- Scan to .docx, .xlsx and .pptx
- Optional Network Interface Panel offers Push Scan features and customisable 'scan to' functions, such as 'Scan to Microsoft SharePoint®'
- Send scans straight to Android or Apple mobile devices by downloading the Epson Document Scan app from Google Play or the Apple App Store

While Epson scanners use sophisticated technology to ensure high-quality results for your business, they're also designed to be simple for any employee to use. Features such as automatic document feeders, duplex scanning and optical character recognition make scanning and automatically processing jobs quick and easy.

Easy to use

Take the hassle out of scanning with text enhancement, automatic de-skew and automatic document size detection.

Efficient

Increase efficiency with fast duplex scanning at speeds of up to 70ppm/140ipm and high capacity automatic document feeders.

Productivity boosting

Simplify complex or time-consuming tasks with advanced features including automatic character recognition and barcode recognition.

Flexible

Achieve flexibility with Programming Interface Application (API), enabling you to add plug-ins for easy integration of Epson's software solutions into your preferred DMS and cloud services.

STREAMLINE YOUR WORKFLOW

Epson's Document Capture Suite streamlines your workflow by reducing the number of steps needed to capture, convert and distribute scanned information in your document management system or cloud services.

Traditional 5-step scanning process

Traditional scanning processes are lengthy and time-consuming, with a number of steps. To share documents, they must be scanned, saved and then moved to the correct location or emailed.

Scan document and save to file

Send via email

Save from email to folder

Upload

Store

Streamline your workflow with Epson's Document Capture Suite

Epson's software and imaging technology saves time by cutting out steps and streamlining workflow. It also reduces the risk of human error and misplaced documents.

Capture

Optimise automatic workflow with pre-defined jobs

Epson scanner panels can be customised with pre-defined job profiles, making it simple for any employee to integrate documents into company processes.

Workflow integration

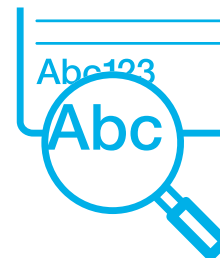

With push-scan features, in one step, users can capture and integrate high-quality electronic documents into their workflow processes. This turns complicated jobs such as organising documents or enhancing text, into effortless tasks. Additional plug-ins also provide users with the flexibility to integrate Epson's software with their preferred DMS and cloud services.

Document Capture Suite increases efficiency and productivity. It can be used by anyone and has minimal training requirements, offering a simplified document capture process and intuitive user interface.

Automatic document feeder

Increase productivity by capturing large batch of papers in one step.

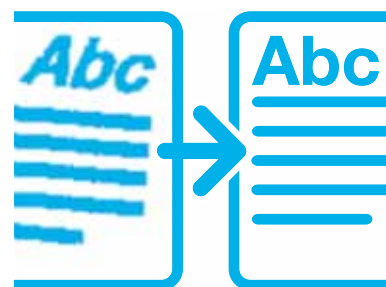

Barcode recognition and Zonal OCR

Save time by automatically creating folders and file names.

Optical character recognition

Seamlessly convert scanned documents into searchable PDF or Docx, Pptx, Xlsx file formats.

Document imaging

Increase efficiency with advanced document imaging features, including multi-document size detection, text enhancement and automatic de-skew.

SCANNERS TO SUIT EVERY BUSINESS

Whatever the size of your budget and your organisation, we have a scanner to suit your needs. Choose from A3 or A4, sheet-fed or flatbed, mobile or desktop.

Each scanner is packed with technology to make scanning faster, easier and more accurate, making light work of archiving and document management tasks and ensuring you always get the best results. Our range offers a wealth of features such as automatic document feeders, automatic duplex and networking. All scanners feature Epson ReadyScan LED Technology for instant scans with no warm-up time and lower power consumption.

Model shown Workforce DS-7500N

WorkForce DS-30

- A4 portable scanner
- Compact and lightweight
- Advanced imaging software
- Easy to use

Epson GT-1500

- A4 flatbed scanner
- Scans at up to 18ppm mono/12ppm colour
- 40-sheet auto document feeder
- Customisable controls

**WorkForce DS-520/DS-520N/
DS-560**

- A4 sheet-fed scanner
- Scans at up to 30ppm/60ipm
- Advanced feed technology
- Optional Network Interface Units²
- Wi-Fi and AP mode capability¹

Epson GT-S85/GT-S85N

- A4 sheet-fed scanner
- Scans at up to 40ppm/80ipm
- 75-sheet auto document feeder
- Two-sided scanning

WorkForce DS-860/DS-860N

- A4 sheet-fed scanner
- Scans at up to 65ppm/130ipm
- 80-page auto document feeder
- Double-feed detection

**WorkForce DS-5500/DS-6500/
DS-7500 Series**

Models shown Workforce DS-5500/DS-6500/DS-7500N

- A4 flatbed scanner
- Scans at up to 40ppm/80ipm
- Push-scan features
- 100-page auto document feeder (DS-6500/DS-7500 Series)

**WorkForce DS-5000/DS-6000/
DS-7000 Series**

Models shown Workforce DS-5000/DS-6000/DS-7000N

- A3 flatbed scanner
- Scans at up to 70ppm/140ipm
- 200-page auto document feeder (DS-6000/DS-7000 Series)
- Push-scan features
