JOIN THE PRINTER REVOLUTION
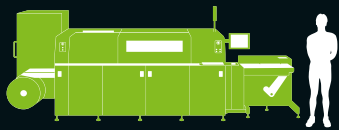

EPSON®
EXCEED YOUR VISION

INDUSTRIAL TECHNOLOGY BROUGHT TO THE OFFICE

PRECISIONCORE

PrecisionCore takes inkjet printing to a new level, delivering dramatic increases in speed, quality, reliability and efficiency.

Highly reliable and durable printhead technology developed for use in industrial and commercial printing applications, PrecisionCore will be rolled out across Epson's range of industrial and commercial products, including high-speed industrial label presses and direct-to-garment printers. These commercial applications require a high degree of durability, reliability, quality and speed.

SurePress
Industrial sized inkjet digital label press for easy, efficient, high-quality, short-run label printing

SureColor LFP
SureColor Large Format Dye sub printer for roll-to-roll textiles

SC-F2000
SureColor direct-to-garment flatbed printer – perfect for t-shirt printing

Epson Label Printer
On demand, cost effective, desktop colour label printers

Epson has invested €125 million in new production facilities to bring the advantages of the PrecisionCore printhead to its Epson WorkForce Pro range for the first time, delivering high-quality, fast and reliable printing in the workplace.

**Perfect combination of speed, quality and reliability**
PrecisionCore printhead technology can produce ink droplets of different sizes. The larger droplets fill expanses of colour more efficiently boosting print speeds while the smaller droplets create smooth gradations and crisp edges to improve print quality. At the same time, each PrecisionCore Piezo element has the potential to work as a highly sensitive sensor, self-diagnosing in milliseconds and making any adjustments required.

LOWER IMPACT ON THE ENVIRONMENT

The WorkForce Pro Series is kinder to the environment than competitive colour lasers. Epson's clean, no heat technology produces no ozone gases or any fan noise during or after printing, helping businesses meet their environmental targets:

ENERGY STAR

Energy efficient

80% lower power consumption*1

Space saving

Uses fewer, space-saving ink cartridges

Fewer parts to dispose of

Lasers need a drum, fuser unit, photoconductors, transfer unit, transfer roller

HIGH-QUALITY, LOW INTERVENTION PRINTING

Printing costs are a big concern for any business, which is why Epson offers a range of ink cartridge sizes. They enable you to keep your costs down, guarantee your prints will look superb, and last longer in any business environment.

Business quality documents
Laser-like text and graphics on plain paper

Perfect prints
Enhance printed materials with high-quality graphics

More choice
Print on a wide range of paper, including high impact colour on glossy media

Amazingly durable
Prints dry instantly and resist water, smudging, fading and highlighter pens

Cartridge sizes to match your printing needs

Epson uses individual ink cartridges across its inkjet printer range.

This keeps costs down as you only replace the colour used. Epson offer a choice of cartridge sizes for normal, high and very high print volumes. So you get low-cost printing whatever your level of output.

IMPROVE PRODUCTIVITY REDUCE COSTS

PRECISION**CORE**

Designed for the cost-conscious office, the WorkForce Pro business printers offer significant advantages, with low running costs and fast print speeds. The flexible connectivity allows this range to seemlessly integrate into enterprise infrastructures to boost office productivity.

WorkForce Pro **WF-5690DWF**

This A4 multifunction printer seamlessly integrates into medium to large enterprises. Cut up to 50% of your printing costs and up to 80% of your energy use*[1], while reducing user intervention and enhancing productivity.

Key features

– Double-sided print, copy, scan and fax
– Printing up to 34ppm or 20ppm mono (ISO) or up to 30ppm or 20ppm colour (ISO)*[1]
– Up to 4,000 pages cartridge yield*[2]
– Gigabit Network-ready including PCL6, PCL5c and genuine Adobe® PostScript® 3™ emulations

– Powered by PrecisionCore, Epson's latest advanced printhead technology
– Confidential secure PC printing
– Email Print for Enterprise compatibility
– Large 10.9cm colour touch-screen for easy menu navigation

Fast Duplex

Colour Touch-Screen

High Yield Ink Cartridges

Black 4000 | Colour 4000 pages

EPSON

Model shown is the WF-5690DWF with an optional extra cassette.

Economical

50%

Up to 50% lower cost per page*[1]

Print more with high-capacity ink cartridges

Ecological

80%

Up to 80% lower energy consumption*[1]

Low power consumption and fewer parts to replace

Fast

Faster than a laser on typical print jobs*[1]

No warm up time needed

WorkForce Pro **WF-5620DWF**

A small workgroup multifunction printer perfect for business

Key features
– Built in 35 sheet Auto Document Feeder
– Large 8.8cm colour touch-screen for easy menu navigation
– High speed fax with 550 page memory
– Direct print and scan from USB memory device without the need for a PC connection
– LDAP address book compatibility

WorkForce Pro **WF-5190DW**

Enhance productivity with this A4 printer for medium to large enterprises

Key features
– Fast, high quality printing up to 34ppm or 20ppm mono (ISO) or up to 30ppm or 20ppm colour (ISO)*[1]
– Gigabit Network-ready including PCL6, PCL5c and genuine Adobe® PostScript® 3™ emulations
– Confidential secure PC printing with PIN code release

WorkForce Pro **WF-5110DW**

Ecological and low-cost A4 printer

Key features
– Fast, high quality printing up to 34ppm or 20ppm mono (ISO) or up to 30ppm or 20ppm colour (ISO)*[1]
– 5.6cm mono LCD display
– Easy printing from wireless devices using Wi-Fi Direct™
– Gigabit Ethernet connectivity

LOWER COSTS HIGHER EFFICIENCY

PRECISION**CORE**

Enhance your printing performance while cutting costs and lowering environmental impact with these versatile A3+ business printers. They are powerful, reliable, easy to integrate and ready to grow with your business.

WorkForce Pro **WF-8590DWF**

A workgroup A3+ multifunction printer, perfect for business environments that have traditionally used lasers and want to increase productivity and reduce downtime and waste. Epson's clean technology helps create a more environmentally friendly workplace, and PDL printer emulations and Gigabit Ethernet are ideal for enterprise integration.

Key features

– Print on up to A3 and A3+ paper sizes
– Printing up to 34ppm or 24ppm mono/colour (ISO)*[1]
– 50 sheet ADF with One-Pass Duplex Scanning
– Gigabit Network-ready including PCL6, PCL5c and genuine Adobe® PostScript® 3™ emulations
– Seamless integration into a document management system with Document Capture Pro

– Powered by PrecisionCore, Epson's latest advanced printhead technology
– Email Print for Enterprise compatibility
– Confidential secure PC printing
– Large 12.7cm colour touch-screen for easy menu navigation
– LDAP address book compatibility

Up to 34ppm print speed or 24ppm ISO print speed in black/colour*[1]

WorkForce Pro **WF-8510DWF**

Low TCO A3+ multifunction for small to medium offices

Key features
– Built in 50 sheet Auto Document feeder
– Large 12.7cm colour touch screen for easy menu navigation
– Built-in high speed fax with 550 page memory
– Fast copying up to 21ipm colour (ISO) from the ADF
– LDAP address book compatibility

WorkForce Pro **WF-8090DW**

This A3+ business printer seamlessly integrates into medium to large enterprises

Key features
– Fast, high quality printing up to 34ppm or 24ppm mono/colour (ISO)*[2]
– 5.6cm mono LCD display
– Easy printing from wireless devices using W-Fi Direct™
– Confidential secure PC printing with PIN code release
– Advanced PCL and Adobe® PostScript® 3™ emulations for the business environment

---

WorkForce Pro **WF-8010DW**

A small to medium workgroup A3+ printer that's perfect for business

Key features
– Fast, high quality printing up to 34ppm or 24ppm mono/colour (ISO)*[2]
– Automatic double sided printing
– Easy printing from wireless devices using W-Fi Direct™
– Gigabit Ethernet connectivity
– Rear MP tray for printing on to A3+ and different media

ENHANCED CONNECTIVITY FOR IMPROVED WORKFLOW

It's easy to print documents from emails or capture, file and share them instantly with our powerful, intuitive software solutions. Run from straightforward touch-screens with simple menu navigation, they can make your office much more efficient and productive.

Email Print for Enterprise

Email Print for Enterprise allows you to securely send documents directly to the printer from your company email address. Available in direct printing or Pull Print mode, this secure system integrates seamlessly into your existing IT infrastructure.

Save cost
Automatic deletion of unreleased documents after a pre-defined time, helps IT managers to reduce print costs.

Driverless and app-free
This server-based software system enables documents to be sent to print via email without the need for driver installation or application downloads.
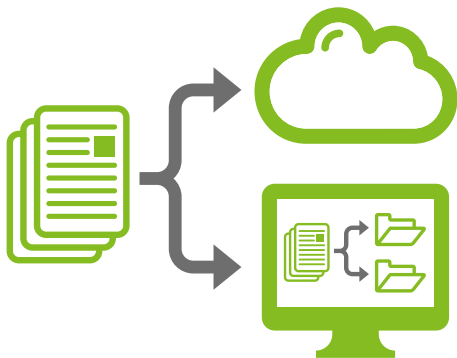

Secure Print mode (Pull Print)
Send a file to the central email address, then go to the printer of your choice to release your print job after logging in via the web app on your mobile. You can print the body of the email as well as attachments such as Microsoft Office documents, photos and PDFs.
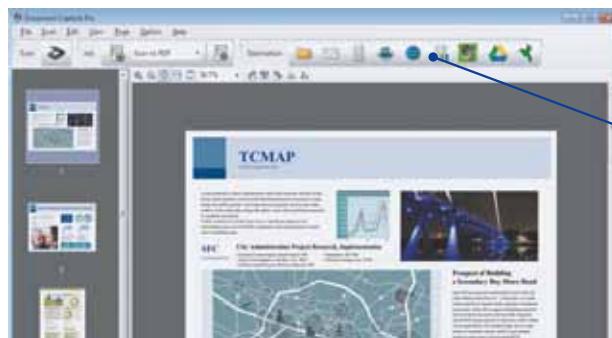

Document management made easy

Document Capture Pro is the easy-to-use solution for capturing and storing electronic documents at the click of a button. Whether you're on-the-go running a small business, or responsible for a large corporate organisation with hundreds of employees, Document Capture Pro will make you more productive and efficient.

Take control of your documents

Offering versatile solutions to suit everyone from the beginner to the advanced user, Document Capture Pro can handle multiple document sizes and dimensions at once with the ability to handle batch separation, barcode recognition and zonal OCR support.

Collaborate and share

Work as a team, and send scanned documents directly to Microsoft Sharepoint®, FTP and cloud storage.
