

EPSON BUSINESS RANGE

TECHNOLOGY THAT MEANS BUSINESS

ENGINEERED
FOR BUSINESS

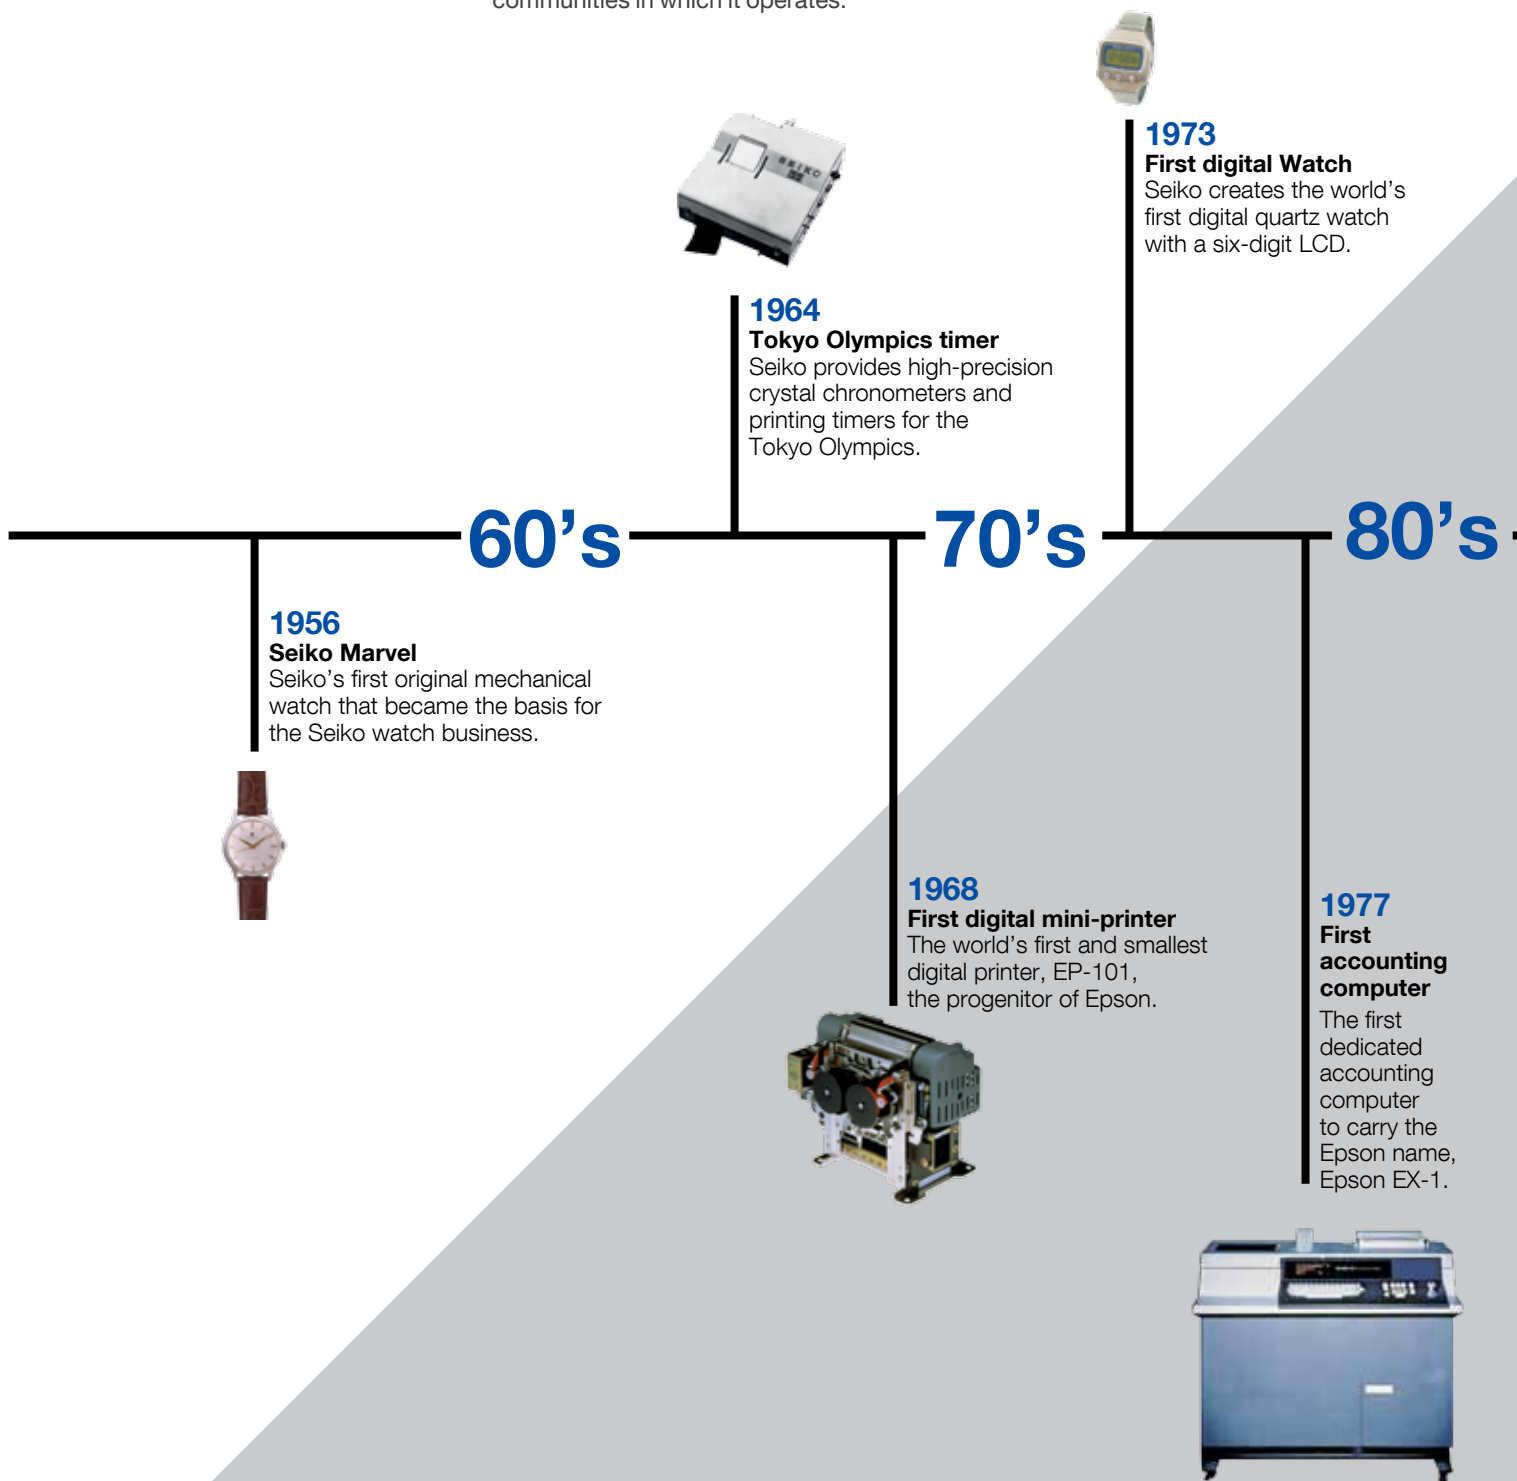

EPSON[®]
EXCEED YOUR VISION

HISTORY OF INNOVATION

Epson is a global imaging leader, dedicated to exceeding the vision of its customers for over 40 years, supporting micro-businesses through to multi-nationals with its innovative, compact, energy-saving technologies. Every day we invest \$1.75 million in research and development and file 13 new patents, with a target of developing tomorrow's technology today.

With a product line-up encompassing inkjet, laser, thermal and dot matrix printers, plus 3LCD projectors and scanners, Epson's high-precision technologies are relied on by millions worldwide.

Led by the Japan-based Seiko Epson Corporation, the Epson Group comprises more than 81,000 employees in 97 companies around the world, and is proud of its on-going contributions to the global environment and the communities in which it operates.

1982

First hand-held computer

Epson launches the world's first hand-held computer, Epson HX-20.

2005

Energy efficiency

SureColor SC-F Series

Epson launches the SureColor SC-F Series of dye-sublimation printers.

1994

World's first colour inkjet printer

Epson launches the Stylus Color printer, the world's first 720dpi colour inkjet printer.

2011

Award winning inkjet printer range

Epson launches its award winning WorkForce Pro printer range.

A GLOBAL PARTNER OF BUSINESS

Vision. Performance. Quality.

Three words which have underpinned Epson's success over nearly four decades. It's because we know what businesses need, and have consistently developed products to meet those needs, that we are now globally recognised as a valuable partner of businesses everywhere, helping companies, large and small, to become and remain successful in a dynamic and competitive marketplace.

Today, as one of the world's **leading** printer manufacturers, our business range includes some of the most **advanced** but **cost-effective** imaging technology, from printers through to projectors and scanners.

PRINTING

Business inkjets, lasers and all-in-one printers.

Increase productivity and efficiency with high-speed, double-sided printing, or get even more from your investment with a versatile 4-in-1. Whatever you need, we have the perfect product for you - Epson's comprehensive range of single and multi-function printers meets every business requirement.

- High-quality business printing
- Solutions for large networks to personal desktop use
- Reliable, durable and easy to maintain
- Simple to integrate into office workflows
- Monochrome, colour and all-in-one models

PROJECTING

Installation, interactive, meeting room and mobile projectors

Deliver high-quality, professional presentations with confidence - in the office, boardroom or auditorium. However big or small your projection requirements, you will find something in our comprehensive range of business projectors that is ideal for the task. That's why we have been the number one choice for projectors worldwide since 2001¹.

- Choose from ultra-mobile and portable, to installation models
- Networked, wireless and PC-free presenting
- Easy set-up and simple control
- Projected images of up to 300 inches
- Reliable, durable and secure

SCANNING

High-speed document scanners

Make paper archives a thing of the past with digital storage. With Epson business scanners, capturing and integrating paper documents into an electronic document management system is simplicity itself. From flatbeds to sheetfeds, and up to A3 format, our products are all designed to increase productivity with the very latest imaging technology.

- Capture, convert, store and distribute scanned documents
- Powerful bundled software
- Networked models for easy sharing
- Scan anything from business cards to A3 documents
- Incredibly fast and easy-to-use
- Sleek design suitable for any office

Fast

Faster than competitive colour lasers²

Economical

50%

Up to 50% lower cost per page than competitive colour lasers²

Ecological

80%

80% lower energy consumption than competitive colour lasers²

“The key benefit of the printers is that TCO is 70 percent lower per year compared to the previous solution.”

Andrew Musetti, Head of IT and business analysis, Karali -Burger King franchisee

“The savings we’ve seen in cost per page and energy consumption have converted me. Increasing the volume of sheets you can produce per ink cartridge has made a significant financial difference to the business.”

Lucy Cohen, co-founder and commercial director for Mazuma

BUSINESS PRINTING

When it comes to printing technology, Epson is a name that stands alone. Why? Because we know the business challenges you face, and we have developed a unique suite of products to meet them. Over several decades, our range of printers has evolved to become perfectly adapted to the needs of the business environment, offering the ideal solution for every particular requirement. Whether your focus is on speed or reliability, economy or the environment, you will find we offer a solution that’s unmatched by any other manufacturer.

WorkForce: robust and reliable devices

Take our business inkjet printers for example. Inkjet technology is rapidly growing in both performance and popularity, and can offer real benefits over comparative laser solutions.

Today, Epson is setting the pace with a portfolio of inkjet products, based on our innovative Micro Piezo™ printhead. Our inkjets deliver outstanding performance in every aspect of business printing from cost-per-page and power consumption to speed, reliability and quality.

AcuLasers: unequalled technology and performance

AcuLasers offer real advantages too. Whether your business is large or small, and whatever your requirement, we have something ideally suited to your needs, offering an unparalleled mix of innovation, performance, low TCO and quality. Benefitting from several unique Epson developments, such as our Resolution Improvement Technology (RiT) and our AcuBrite toners, we offer solutions which range from fast, flexible colour lasers that deliver professional quality output, through productivity-boosting multi-function printers, to super-fast, ultra-reliable monochrome workhorses designed for workgroup use.

A4 SMALL WORKGROUP PRINTERS

WorkForce Pro WF-5690DWF

Maximise productivity with devices designed especially for medium workgroups and enterprises. The WorkForce Pro WF-5690DWF comes with one paper tray, a rear paper feeder and an optional additional paper tray. With double-sided printing, these high-performance multifunction business inkjets offer low cost per page and reduced energy consumption. Further products available in this series are the WF-5620DWF MFP and WF-5190DW and the WF-5110DW colour printers.

Key Features

- Double-sided print, copy, scan, fax*
- Printing up to 20ppm monochrome and colour⁶
- Up to 4,000 pages cartridge yield³
- Network-ready; PCL6, PCL5c and genuine Adobe® PostScript® 3™ emulations**
- Seamless integration into a document management system with Document Capture Pro
- Powered by PrecisionCore™, Epson's latest advanced printhead technology
- Email Print for Enterprise compatibility

A4 SMALL WORKGROUP MONO PRINTERS

WorkForce Pro WP-M4525 DNF

Ideal for businesses with high print volumes, our monochrome printers provide a low total cost of ownership. Take the WP-M4525DNF for example. It has ultra high ink yield cartridges which print up to 10,000 pages⁴, and offer 80% lower energy consumption than a comparable laser². This coupled with low maintenance make it a great choice for a busy office. Further products available in this series are the WP-M4015DN, WP-M4095DN and the WP-M4595DNF.

Key Features

- Ultra-high yield ink cartridge
- PCL6, PCL5c and PS3 emulations
- Up to 50% lower cost per page²
- 80% lower energy consumption²
- Fast, automatic duplex printing

A4 SMALL WORKGROUP PRINTERS

WorkForce Pro WF-4640DTWF

Designed to suit the modern small office, this is the ultimate professional tool. We all know how frustrating it is waiting for a print job, even more so when it is only a few pages. That is why Epson created the WorkForce Pro WF-4640DTWF network-ready 4-in-1 with fax and double-sided printing. This printer also comes with Epson Connect⁵ to meet all your mobile printing needs, enabling users to print from smartphones and tablet PCs. The other model available in this series is the WF-4630DWF.

Key Features

- Easy to use 10.9 cm LCD touch-screen with hard keys
- Duplex print, copy, scan and fax
- Wi-Fi Direct™, Wi-Fi® and Ethernet connectivity
- Two high-capacity front-loading paper trays
- Print up to 20ppm mono and 20ppm colour⁶
- Up to 50% lower cost-per-page and up to 80% lower energy consumption than competitive lasers²
- Epson Connect⁵ – easy printing from smartphones, tablets and email printing from anywhere
- Powered by PrecisionCore, Epson's latest advanced printhead technology

A4 SMALL OFFICE PRINTERS

WorkForce WF-3640DTWF

The WorkForce WF-3640DTWF has been designed to fit perfectly into small, busy office environments with fast print speeds and duplex printing, scanning, copying and faxing. In addition, this model features dual 250-sheet paper trays, the rear speciality paper path and Epson Connect. Further products available in this series is the WF-3620DWF.

Key Features

- Duplex print, scan, copy and fax with automatic document feeder
- Fast business quality printing at up to 19ppm⁶
- Flexible connectivity with Wi-Fi®, Wi-Fi Direct and Ethernet
- Easy-to-use 8.8cm LCD screen
- Print and share from anywhere with Epson Connect⁵

A3 SMALL OFFICE PRINTERS

WorkForce WF-7620 DTWF

Designed with the needs of both small businesses and home offices in mind, the WorkForce WF-7620 DTWF is Epson's top-of-the-range A3+ multifunction printer. It's ideal for users such as graphic designers, architects and engineers and represents the perfect blend of affordability, reliability and speed, boasting a range of value added features for greater productivity. Also available in this series is the WF-7610 DWF and the WF-7110 DTW.

Key Features

- A3+ printing. Scan, copy and fax up to A3
- A4 double-sided printing, scanning, copying and faxing
- Printing up to 18ppm monochrome and 8.7ppm colour⁶
- High-capacity dual paper trays
- Print and share from anywhere with Epson Connect⁵
- Powered by PrecisionCore, Epson's latest advanced printhead technology

SAVE TIME AND MONEY

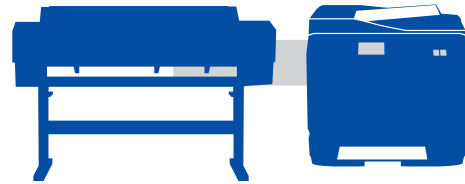

Epson **Print & Save** is a professional printing service package offering businesses **lower printing costs**, when compared with supplies and service cover bought separately. This package allows businesses to control their supplies budget much more efficiently, ensures their supplies are always up-to-date without overstocking and offers peace of mind with a three-year service warranty. In addition, businesses can choose to purchase new hardware with Epson Print and Save, spread hardware costs with monthly rental payments or add this service to current Epson printer fleets⁷.

1. Epson's partner works out your printing needs

2. Epson's partner sells or leases the selected models to you

3. Need new supplies? No problem

4. Supplies are delivered free of charge

5. On-site warranty for added peace of mind

6. All inclusive in the fixed monthly fee and savings from 20 to 45%⁸

MOBILE PRINTING

Epson Connect⁵: smartphone, tablet PC and cloud printing services

Epson's mobile and cloud printing services allow you to print wirelessly from smartphones and tablet PCs in the office and print from anywhere in the world by emailing photo and document attachments directly to the printer's unique email address.

Alternatively, Windows[®] users can download Epson Remote Print Driver and send documents to print from within an application. It's the same as printing a document normally from a laptop or PC, but instead of sending a document to a nearby printer, you can send it to one anywhere in the world. Scan-to-Cloud enables you to store scanned documents directly in your chosen Cloud service.

Epson iPrint

COLOUR MULTI-FUNCTION PRINTERS

AcuLaser CX37DNF

Developed for demanding workgroups, the AcuLaser CX37DN Series is engineered to meet every business requirement with print, copy, scan and fax functions¹¹. The series also features an automatic document feeder as standard, while an optional additional paper tray allows workgroups to further improve productivity and save time by quickly and easily increasing paper capacity. Further products available in this series are the AL-CX37DN, AL-CX37DTN and the AL-CX37DTNF.

Key Features

- High-performance, colour laser series with A4 printer, scanner and copier
- Compact design for medium-to-large workgroups
- High durability with a monthly duty cycle of up to 120,000 pages
- Efficient print speed of up to 24ppm in A4⁶
- Automatic document feeder
- Double sided printing as standard

A4 MONOCHROME SINGLE FUNCTION PRINTERS

WorkForce AL-M300DN

The WorkForce AL-M300D Range are one of Epson's most hardworking and reliable A4 monochrome printer groups, thanks to its 100,000-page duty cycle - the highest in its class. Aimed at small workgroups who are looking for high productivity, this model offers reliable, high performance and comes with Gigabit Ethernet⁹ and fast, double sided printing. Also available in this series are the AL-M300DTN and the AL-M300DT.

Key Features

- Robust and reliable
- High print speeds 35ppm
- high paper capacity
- Low total cost of ownership

A4 COLOUR SINGLE FUNCTION, SMALL WORKGROUP PRINTERS

Epson AcuLaser C2900DN

Developed for demanding micro-businesses and small businesses, the AcuLaser C2900N Series can make organisations more efficient while delivering professional results. All models in this single-function series can easily handle large print jobs quickly, while maintaining a professional-standard resolution and high-quality images. Also available in this series are the C2900DN and the CX29NF.

Key Features

- Fast print speeds of 23ppm⁶
- Print resolution of 600x600dpi
- High-quality printing with excellent colour
- High reactivity thanks to a first page out of less than 15 seconds.

A4 COLOUR SINGLE FUNCTION, LARGE WORKGROUP PRINTERS

WorkForce AL-C500DN

The WorkForce AL-C500DN Series offers Epson's finest colour laser reproduction thanks to its wide colour gamut. With this affordable printer, companies can produce professional quality in-house marketing materials easily and affordably, as well as superior-colour office documents. Further products available in this series are the AL-C500DTN, AL-C500DHN and the AL-C500DXN.

Key Features

- 4,800 RIT and multi screen printing technology
- 45ppm⁶, duplex printing and 120,000 pages duty cycle
- Produce professional in-house marketing materials
- Print job arranger, universal driver

BACK OFFICE PRINTING

There are many solutions available in the Epson portfolio when it comes to back office printing ranging from disc producing to label making. Whatever your requirements, there is sure to be something for you amongst Epson's portfolio of products.

DISCPRODUCER - LEADING SOLUTIONS FOR PUBLISHING AND ARCHIVING

If you need to burn and print professional CDs, DVDs and BDs in batches, you will find that our Discproducer series will save time, add flexibility, enhance security and reduce costs. Offering photo-realistic printing and fully automated disc reproduction in one neat package, it is ideal for a wide range of organisations and businesses, from hospitals and agencies to public organisations and independent duplication services.

Discproducer.

DOT MATRIX - KEEPING BUSINESSES MOVING

As you might expect from the world's leading¹² manufacturer of dot matrix printers for commercial, industrial, logistic and front desk applications, Epson's dot matrix printers combine both excellent print quality and very competitive pricing. Including 9 and 24-pin products, with narrow or wide carriage, as well as flatbed, they are ideal for a massive range of back office environments. In fact, for applications such as cheque processing or documents where multi-part stationery is used, there is simply no alternative to impact printing - and impact printing doesn't get any better or more cost-effective than with Epson.

NO. 1 WORLD LEADER
IMPACT DOT MATRIX PRINTER
SINCE 1995

LABEL MAKERS - ORGANISATION MADE EASY

Epson LabelWorks label makers are designed to work perfectly with Epson supplies, providing high-quality, cost effective labels, while reducing waste by minimising margins. Whatever your business, from retail and warehousing through medical and education, to independent service provision, you'll find a LabelWorks product that will meet your needs precisely and make your organisation more efficient.

SPECIALISED PRINTING

Epson has developed sophisticated solutions to meet the needs of specific vertical markets covering those areas of signage, retail and hospitality and CAD.

SIGNAGE - EPSON QUALITY, ENDLESS OPTIONS

Our experience in photography, fine art and proofing in the pre-press world, has given us the ability to manage all the repeatability and the intricacies of colour. Based on this long history, we've gone one step further, engineering the SureColor™ SC-S Series of products for the signage market that offer innovative capabilities, high-quality graphics at a lower total cost of ownership which we believe is difficult to match.

Brightest Colours

Three times brighter colours ensure superb colour brightness and high impact presentations.

High Resolution

WUXGA

Resolutions up to WUXGA enables projection of content in its original resolution for outstanding image quality.

Leading Technology

Epson has been a for runner for projectors for over 11 years' leading the way in projector technology.

PROJECTORS

There is a wide choice of business projectors out there. So to remain the market leader for over a decade, as Epson has done¹, has meant that we have continually developed our products, adapting them to meet the changing conditions and requirements of the business world. The result is a portfolio of products which is acknowledged as offering the most powerful, flexible and cost-effective solutions currently available. There are solutions for a wide range of applications ranging from boardroom projectors and meeting room presentation systems, through to ultra-mobile devices for sales professionals.

A solution for every need

The projection demands of a business vary widely. Some may want to project high-quality images in large, brightly-lit spaces, while others need a product suitable for smaller meeting rooms. Some customers have no need of an extensive feature set, while others need advanced functionality such as wireless networking or the ability to present from a mobile device. Whatever your needs and budget, you can be sure of one thing: Epson has a product which is perfectly positioned to meet them, delivering the performance that has made us No.1 in business projectors for over 11 years¹.

We innovate, you benefit

You don't become – and stay – a market leader without innovating. Fortunately, innovation is one of our greatest strengths – an ability for which we have earned a global reputation over the past 40 years. It is an ability that is nowhere more evident than in the unique technology that underpins the success of our projector range – technology that includes developments such as interactive, 3D projectors that support collaboration, as well as new, innovative lamp technologies which provide superior images at lower cost and energy consumption.

PROFESSIONAL INSTALLATION PROJECTORS

Epson EB-G6650WU

Ideal for medium to large meeting rooms this powerful, professional installation projector delivers sharper, clearer presentations. With the Epson EB-G6650WU Full HD projector your important business presentations are delivered with rich, vivid colours - even in daylight. This is thanks to Epson's 3LCD technology, delivering an equally high White and Colour Light Output of 6,000 lumens, with WUXGA resolution. Further products available in this series are the EB-G6450WU, EB-G6350, EB-G6250W, EB-G6050W EB-G6900WU and the EB-G6800.

Key Features

- 6,000 lumens White and Colour Light Output
- WUXGA resolution
- Full HD 3LCD technology
- Six interchangeable lenses
- Easy installation features
- Advanced features such as edge blending and lens shift
- Geometric correction including curved surface and corner wall¹⁴

FULL HD INSTALLATION PROJECTORS

Epson EB-4950WU

Featuring Epson's 3LCD projector technology and an equally high White and Colour Light Output of 4,500 lumens, important presentations are shown with vivid, realistic colours and can be shown in a variety of ambient light levels. And thanks to a variety of user-friendly installation features, the Epson EB-4950WU projector is easy to set up and use. Further products available in this series are the EB-4850WU, EB-4750W, EB-4650 and the EB-4550.

Key Features

- 4,500 lumens White and Colour Light Output
- WUXGA resolution
- Exceptional image quality with Epson 3LCD technology
- Wide ranging input connections
- Easy installation with horizontal & vertical lens shift
- Wide ranging 1.8x zoom lens
- Advanced features including split screen and Easy MP Network and software functions

INTERACTIVE MEETING ROOM PROJECTORS

Epson EB-1410Wi

With Epson's new EB-1410Wi interactive projector series, one piece of equipment does the job of three or four. This 3,100 lumen model combines the roles of ultra-short-throw projectors, interactive whiteboards and paper flipcharts into one multi-purpose, integrated system, ideal for the modern-day workplace. Simple and straightforward to use, the EB-1410Wi has an intuitive user-friendly on-screen toolbar and advanced features for flexible presenting. Also available in this series is the EB-1400Wi.

Key Features

- 3,100 lumens White and Colour Light Output
- All-in-one multi-purpose integrated device
- Control PC mouse function or annotate projected image using dual interactive pens
- Save, edit, print or e-mail direct from the projector to share content
- Advanced features include split screen, displaying content from mobile devices support collaboration
- Cost effective - simple to set up and no training needed

LARGE MEETING ROOM PROJECTORS

Epson EB-1945W

Affordable, compact and easily set up projection from a feature packed device that is ideal for corporate use, the EB-1945W is a great combination of quality output and features at an affordable price. Further products available in this series are the EB-1965, EB-1960, EB-1955, EB-1950, EB-1940W and the EB-1930.

Key Features

- 4,200 lumens White and Colour Light Output
- WXGA Resolution for optimal image quality
- HDMI input
- 1.6x Optical zoom
- Advanced Features including Split Screen and Easy MP Network & Software features
- Wired LAN/ Wi-Fi connectivity

SMALL MEETING ROOM PROJECTORS

Epson EB-955W

This series has a very low total cost of ownership, but include smart features that are usually only found on more expensive models. Built to bring serious presenting performance to any office, they are also light and portable enough to move around and set up in any room. Further products available in this series are the EB-98, EB-945, EB-965 and the EB-955W.

Key Features

- 3,000 lumens White and Colour Light Output
- Up to WXGA resolution for optimal image quality
- 10,000:1 contrast ratio
- HDMI input
- 1.6x optical zoom¹⁸
- Automatic vertical keystone correction
- Wired LAN and/or optional Wi-Fi connectivity
- Horizontal keystone slider

DESKTOP PROJECTORS

Epson EB-X18

Add interest and inspiration to any meeting with smart projectors that put your message across using smooth, natural images that are clear and bright with lights on or off. Further products available in this series are the EB-S18, EB-X18, EB-W18 and the EB-X24.

Key Features

- 3,000 lumens White and Colour Light Output
- WXGA resolution for optimal image quality
- 10,000:1 contrast ratio
- HDMI input
- 1.2x optical zoom
- Automatic vertical keystone correction
- Horizontal keystone slider
- Optional Wi-Fi connectivity

PROJECTOR TECHNOLOGY

Epson projectors are a ground-breaking mix of performance, reliability and cost-effectiveness that project superb images and bring your presentations to life. Here's an overview of some of the technologies we use ⁹.

The Brightest Colours

High CLO Means Everything's Bright

Many manufacturers only quote the brightness of their projectors' White Light Output, but for a true picture of projector quality you also need to take into account Colour Light Output (CLO).

CLO measures the brightness of red, green and blue light from a projector, which can often be significantly lower than the related White Light Output. If this is the case, images can appear dull.

Epson projectors use 3LCD technology that delivers equal White and Colour Light Output (CLO), for consistently bright, true-to-life images and rich colours that are three times brighter than 1-chip DLP projectors. This makes them the brighter, better option for your business.

3LCD

Single panel system.¹²

With Epson 3LCD technology.¹²

Breathtaking still and moving images

Epson 3LCD technology is at the heart of every Epson projector. This Epson developed technology produces images with incredible detail, smooth, natural colour reproduction and an exceptional greyscale range.

Please visit www.3lcd.com for more information.

Edge Blending

Seamless panoramic images

Edge Blending makes it easy to use multi-screen projection and to achieve a seamless panoramic image. Stack up to four projectors horizontally and up to two vertically to create one single huge image that is perfectly blended together with seamless colour and no marks where the individual images join.

Geometric Corrections

Curve, wall and arc correction

Project images onto curved surfaces or across two adjacent walls without distortion. The 'curved surface' and 'corner wall' correction features adjust the projected image to correct errors created when projecting onto a curved surface or into the corner of a room, perfect for large scale or creative installations.

Ensure your image looks perfect every time with Arc Correction. This feature compensates for irregular sections on any part of the screen and corrects all four sides of the projected image from being arched or barrel-shaped, due to a wall or screen not being flat. In addition, Point Correction adjusts any uneven areas within the screen itself.

EasyMP

Advanced networking and software features

Network Monitor - This software allows you to control a fleet of up to 1,092 projectors, allowing status checks, remote management and scheduled switch on/off across a network.

Network Projection - Allows images and presentations to be sent across the network directly to as many as four projectors simultaneously, either through a wired or wireless connection.

Multi-PC Projection - Allows up to 16 or 32 users (depending on model) to connect to one projector at the same time, with up to four users' screens displayed at once.

PC-free Presentation - Allows images and slideshows to be displayed directly from a USB flash drive with no need for a PC at all - some models also boast Slide Converter software to allow better reproduction of PowerPoint presentations. Newer models also offer support for PDF files and MPEG videos.

Epson iProjection

Project from your hand-held device

iProjection is an intuitive mobile projection app for the iPod touch, iPhone and iPad¹⁵. Epson iProjection makes it easy to wirelessly project images and files stored on your iOS devices using an Epson projector with network availability. Available to download for free from itunes app store. iProjection is also now available for Android^{TM16} devices running Android 2.3 and above. Available to download for free from the Google Play store.

SCANNERS

Document Management Systems

It's the digital age, organisations of all sizes and types are capitalising on the many benefits of digitisation. One such benefit is the increased efficiency that results from the integration of paperless documents into the corporate workflow, which not only enhances productivity, but cuts costs too. When you factor in the carbon footprint associated with paper-based systems, it is no wonder that in today's business world, computer-based Document Management Systems are rapidly becoming the rule rather than the exception.

Total solutions for fast ROI

Of course, wherever you need to digitise paper documents, you need something to digitise them with. That's where scanners come in. And Epson has one of the most comprehensive, cost-effective and configurable scanner ranges in the industry. What's more, we have developed special software available for free and designed to work

seamlessly with our hardware, to bring the very best out of every product. Working together, they make powerful, flexible and easy-to-use document capture solutions that deliver a fast return on investment.

Fast

Up to 70 pages per minute

Versatile

Up to A3

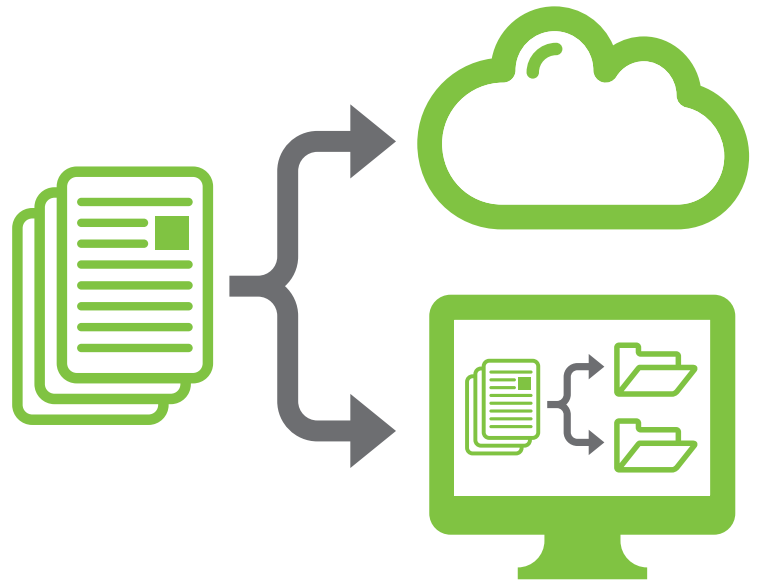

From quick scans on the move to large batch scanning

DOCUMENT CAPTURE SOLUTIONS

We know that businesses of all sizes are finding Document Management Systems (DMS) are the best way to integrate paper documents into their workflow. To help boost businesses' productivity, Epson is offering its own software package for free download.

Document Capture Pro and Document Capture Pro Server are compatible with all common document management systems and cloud storage repositories, opening up a world of possibilities for businesses that need to digitise paper documents.

Document Capture Pro

The client version can be used in a number of different ways with Epson's business scanners. From the high-performance WorkForce DS-510 Series for handling letters, contracts or order forms to the high-speed WorkForce DS A3 and A4 flatbed series, Epson solutions are perfect for converting multiple pages and large batches of paper into an electronic format.

Document Capture Pro is also compatible with the following WorkForce Pro Multifunction devices: WorkForce Pro WP-4595 DNF, WorkForce Pro WP-4525 DNF and WorkForce Pro WP-4515 DN. Providing document management for business users, Document Capture Pro is ideal for the modern office.

Users don't need special training to get started, as Document Capture Pro client and server versions have an intuitive interface which is quick to master. For ease of use they have advanced document imaging features and support all common file formats, including BMP, JPEG, TIFF, PDF and PDF/A.

Document Capture Pro Server

Document Capture Pro Server addresses companies which are looking for advanced push scan functions and other Document Capture Pro features on their shared devices without the need to install software on individual computers.

These versatile document capture solutions suit everyone from the beginner to the advanced user, offering many 'scan-to' functions, including Scan-to-Cloud, scan-to-FTP and scan-to-Microsoft SharePoint®, with the ability to handle batch separation, barcode recognition and zonal OCR support.

A4 FLATBED SCANNING

WorkForce DS-7500

Engineered to integrate seamlessly into document management systems, this reliable document scanner ensures heavy-duty scanning jobs are performed quickly and effortlessly. The Epson WorkForce DS-7500 can handle large batches of documents in a single go, quickly and efficiently. Further products available in this range are the WorkForce DS-5500 & DS-6500 Series.

Key Features

- Up to 40ppm/80ipm
- 100-page ADF capacity
- High-speed USB 2.0/network interface with push scan features¹⁸
- Ultrasonic double feed detection
- Network-capable with an optional Network Interface Panel

A4 SHEET-FED SCANNING

WorkForce DS-510 Series

Designed for demanding businesses, this scanner is packed with superb features and offers a complete document management package. With dual scan technology for two sided scanning in a single pass, and a 50-sheet ADF, it makes light work of any job. For added reliability, it also features an ultrasonic sensor that detects and easily recovers paper jams. The WorkForce DS-510 Series is compatible with Document Capture Pro which provides advanced document imaging features and easy integration into Document management systems.

Key Features

- Up to 26ppm/52ipm
- Dual scan technology
- 50-page ADF
- Ultrasonic sensor for trouble-free performance
- USB 2.0 or Network interface on the WorkForce DS-510N

A4 PERSONAL SCANNING

Epson GT-1500

An easy and affordable way to clear your desk of papers and files with this flatbed document scanner. The Epson GT-1500 is perfect for digitising everything from letters and invoices to photos and magazines, allowing you to transfer them to your computer at the touch of a button.

Key Features

- Advanced document imaging features
- Versatile and easy to use
- Event Manager bundled software
- 40-page ADF
- Energy-saving Ready Scan LED technology

A4 MOBILE SCANNING

WorkForce DS-30

The WorkForce DS-30 A4 mobile scanner is ideal for easy and efficient document management on the move. Whenever and wherever you need to scan and store paper documents such as business cards or signed forms, the Epson DS-30 is an ideal companion.

Key Features

- Extremely compact (276x50x36.5mm)
- Only 325g
- USB powered
- 600dpi scan resolution
- Intuitive user interface

A COMMITMENT TO SUSTAINABILITY

We believe planning for the future requires a strong commitment to the environment. That is why we strive to create innovative products that are reliable, recyclable and energy efficient - better products that use fewer resources.

Global warming and resource depletion are the two most pressing issues we all face today. Epson's aim is to reduce CO2 emissions by 90% across the lifecycle of all our products and services by 2050 and to adapt our manufacturing processes to use recycled resources.

Environmental achievements to date:

- Our Business Inkjets use 80% less power than competitive lasers, significantly reducing the environmental impact².
- Get up to 30% paper saving with the world's first Energy Star-qualified POS thermal receipt printer, Epson TM-T88V.
- Our Micro Piezo printhead uses ink very efficiently, wasting less paper and increasing the products lifetime.
- All Epson scanners use Epson ReadyScan LED technology which means there is no warm-up time, lower power consumption and reduced costs.

2015 Environmental Goals

- Reducing the environmental impact of key products across their lifecycle by as much as 50%.
- Expanding our range of recyclable products.
- Introducing environmental applications of our advanced technologies.
- Fostering an environmental community.

Business inkjets have

ASSURANCE FOR YOUR BUSINESS

All Epson products undergo rigorous testing before release, and our commitment to high - performance extends far beyond the factory floor. With a track record of exceeding our clients' expectations we offer a level of customer service which is second-to-none.

We offer a lifetime of technical assistance as standard through our helpdesks across Europe. Supplementary service programmes cover all specific requirements. With the combination of Epson's large service infrastructure and experienced service partners, you receive a market-leading, high-quality service, whichever programme you choose.

Customer Service

Our local language call centres and email services provide industry-leading customer service and support. With separate lines for professional and business clients, split by product and market, a rapid and appropriate level of service is ensured. Further resources – FAQs, access to the latest drivers and software for your Epson products – are available through our website.

Epson CoverPlus

The Epson CoverPlus extended warranty is a simple and easy way to extend your standard warranty by up to three years, offering you even greater peace of mind.

Tailored for You

As Epson has a wide range of different products we will adapt the warranty accordingly to meet your specific requirements and needs:

- Call out
- Collect, repair, return
- Carry-in
- Replace
- Design - we can design a service offering to meet your requirements

All of our services are personally delivered by our experienced network of service teams throughout Europe.

Epson Express and Local Service Centres

With Epson Express Centres, it is now easier than ever to keep your products performing at their best. From replacement Epson ink and paper to trouble-shooting, diagnosis and repair, you will find all you need to keep your products in peak condition, including:
