# BRING YOUR PRINTS TO LIFE

EPSON®
EXCEED YOUR VISION
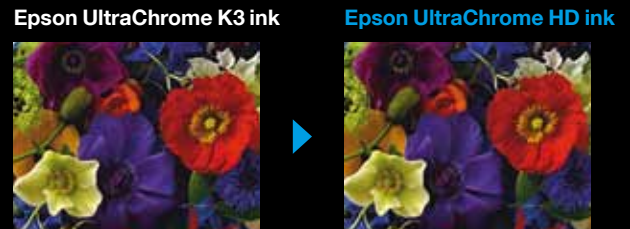

UNSURPASSED BLACK DENSITY

SMOOTHER GRADATIONS

See a real difference in the quality of your prints with the SureColor SC-P600's ultra-high black density. At 2.86 DMax on Premium Glossy Photo Paper (a measure of the deepest black tone a printer can produce), it's the **highest in the industry**[2]. The result is significantly better quality prints, with rich blacks and ultra-smooth tonal gradations in both colour and black & white.
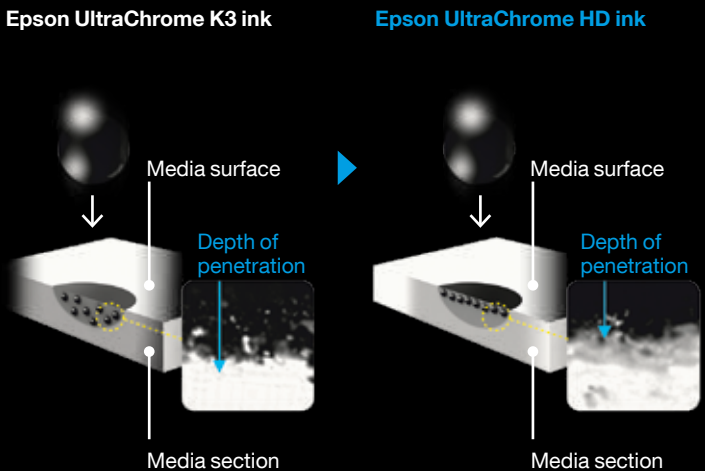

Superior black tonal gradation

VIVID, ACCURATE COLOURS

CAPTURE EVERY COLOUR

Create beautiful prints with vivid, accurate colours. The new nine-colour Epson UltraChrome HD inkset produces an exceptionally wide colour gamut for true-to-life prints that are simply stunning.

REDUCED BRONZING

Bronzing on glossy paper isn't a problem with Epson UltraChrome HD Ink. It forms a thicker layer of resin on the media surface, which reduces the difference between colours such as magenta and cyan that can be a cause of bronzing.

EPSON ULTRACHROME HD INK

STUNNING PRINT QUALITY

STABLE, LONG-LASTING PRINTS

With Epson UltraChrome HD Inks, your prints look better for longer. High pigment density delivers accurate colour reproduction on a wide variety of media, while the pigments' resin coating gives prints excellent resistance to water and fading. Your prints will be highly stable and can be enjoyed for years to come.
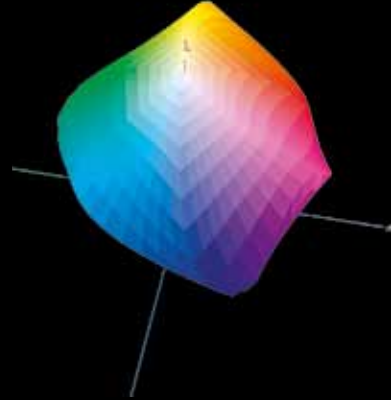

Exceptionally wide colour gamut and highest black density on the market.

EPSON ULTRACHROME HD INK

SEE THE DETAIL

Every detail of your image will be captured thanks to Epson's MicroPiezo printhead. Its exceptionally precise dot placement and ability to produce droplets as small as 2pl ensures gradations are smooth and fine texture is accurately reproduced.

OTHER PHOTO PRINTERS

FAST AND EASY CALIBRATION

Speed up your calibration process with the included new ColorBase 2 calibration software. All you need to do is calibrate once, then the calibrated data can be used for all media types and print modes, including advanced black & white photo.

FAST AND PRODUCTIVE

NO COMPROMISE ON SPEED

The SureColor SC-P600's print speed leaves the competition standing – and helps you improve productivity. An 8x11-inch print takes just 92 seconds, while a 13x19-inch (A3+) glossy photo is ready in 153 seconds.

FEWER INK CHANGES

Optimise your costs and reduce time spent changing ink with generous 25.9ml ink cartridges – ideal for medium-volume printing.

VERSATILE AND EASY TO USE

EXCELLENT MEDIA FLEXIBILITY

A highly versatile addition to your office, studio or home, the SureColor SC-P600 is capable of printing on a wide variety of media. Get great results on glossy paper, matte paper, fine art paper, photo paper, canvas, thick media and CDs/DVDs. It's also compatible with roll paper – perfect for high-impact panoramic images. Switching between media is easy with the printer's twin paper paths that are conveniently accessed from the front.

CONTROL AT YOUR FINGERTIPS

Setting up and managing the printer couldn't be simpler, even without a PC. Control is at your fingertips with the large, bright, 2.7-inch colour touch-screen – unique to the SureColor SC-P600 in the A3+ sector[1]. Check printer status at a glance and easily look-up tasks in the operating manual.
