

LABELWORKS FOR TRANSPORT AND STORAGE

Whatever your labelling needs are, LabelWorks label makers and their supplies make organisation easy and increase your efficiency.

There are many potential hazards in transport and storage environments, such as dangerous equipment, moving machinery and high noise levels. To keep staff and visitors safe, it's essential to use clear labelling and signage.

From fire extinguisher signs to labels for overalls, you'll find a LabelWorks label maker that's perfect for the job.

They make it easy to create large signs up to 100mm wide for safety instructions, chemical containers, noise level warnings, clearance levels, warehouse shelving, loading docks and hazard symbols.

The versatile label makers can also create a wide selection of smaller labels ideal for equipment, inventory control, quality assurance, name badges and other workware identification.

Epson's wide range of labels in different colours, sizes and finishes ensures every task is taken care of. Speciality labels including glow-in-the-dark and reflective labels help ensure visibility in low-light areas such as storage areas and stairwells, while brightly-coloured and fluorescent labels are a great choice for creating eye-catching warning signs and labels. All Epson labels are resistant to abrasion and extreme temperatures, enabling them to withstand the tough demands of transport and storage environments.

Gets jobs done quickly and efficiently

- Super-fast print speed of up to 35mm/sec
- Print and share wirelessly with no need for a router or LAN
- Create and print labels directly from iOS™ and Android™ devices using the free Epson iLabel app¹
- Choose from existing label templates or create custom designs

Better for your bottom line

- Save money with longest tape length on the market
- Change tapes less often thanks to smaller print margins

¹Available from the Apple App Store and Google play.

Produce labels from a PC or mobile iOS™ and Android™ devices

Import data (xls(s), txt, csv) for custom-made designs

Choose from different templates, including barcodes and symbols

Create, save and recall label designs

Recommended tapes

Black on red or yellow

Red or yellow surface printed with black text. Ideal for safety equipment labelling.

Available from 6mm to 36mm widths

Black on reflective

Silver tape with black text. Ideal for aiding visibility in areas with reduced light such as warehouse shelving.

Available in 18mm width

Black on fluorescent yellow or green

Attention-grabbing fluorescent yellow or green tape with black text. Ideal for labelling dangerous substances.

Available in 12mm and 18mm widths

Black on glow-in-the-dark

Glow in the dark for up to 8 hours. Ideal for labelling equipment in stairwells.

Available in 18mm width

LabelWorks Pro100 for temporary or long-lasting transport and storage labels and signage up to 100mm

Choose between durable plastic labels and signs, or temporary paper labels

Use on a desktop with a PC

Benefit from high-quality prints at an economical price

Create larger signs with borderless printing by arranging labels side-by-side

Easily create and edit labels with the included software

Ensure labels are straight using the label application tool with built-in spirit level

Consumables

Choose between seven different coloured Olefin plastic tapes which are available in 50mm and 100mm width rolls, and five different coloured ink ribbons to create 30 colour combinations. A pre-cut paper label roll is also available.

Labels designed to last

Epson LabelWorks tapes are designed to last, fully tested for durability. Up to 9 metres of tape per cartridge and smaller margins mean more labels for your money.
