

LABELWORKS FOR TRANSPORT AND STORAGE

Whatever your labelling needs are, LabelWorks label makers and their supplies make organisation easy and increase your efficiency.

Labelling is essential for transport and storage. Whether it's customer files, delivery notes or shipping files, clear labelling helps logistics and data management flow smoothly, and prevents costly mix-ups.

LabelWorks label makers are designed to meet the tough demands of transport and storage environments, with hardworking models ideal for producing multiple labels on a daily basis. A wide choice of connectivity options meet every need, whether on the road, in a warehouse or at the office.

Saving valuable time, LabelWorks label makers can import data such as part code numbers in xls(s), txt, csv, enabling automatic printing from databases without having to manually edit the label contents each time. As well as printing text, LabelWorks label makers can also handle symbols and barcodes.

With a wide range of tapes – including silver matte and reflective for better scanning results and a range of label widths up to 36mm, virtually all labelling requirements are covered. Once labels are stuck to packages and files, they stay that way, thanks to the label maker's label edge rounding function, which reduces the risk of labels peeling off. All Epson labels resist abrasion and extreme temperatures, making them ideal for shipping and storage applications where long-lasting labels are essential.

Gets jobs done quickly and efficiently

- Super-fast print speed of up to 35mm/sec
- Print and share wirelessly with no need for a router or LAN
- Create and print labels directly from iOS™ and Android™ devices using the free Epson iLabel app¹
- Choose from existing label templates or create custom designs
- Import data for custom-made label designs

Helps budgets go further

- Save money with the longest tape length on the market
- Change tapes less often thanks to smaller print margins

¹ Available from the Apple App Store and Google play

LabelWorks LW-1000P for custom transport and storage labels up to 36mm wide

Choose from different templates, including barcodes and symbols

Operate easily with top-loading tape feed

Import data (xls(s), txt, csv) for custom-made designs

Select from multiple connectivity options including wireless LAN, wireless device-to-device and Ethernet connectivity

Improve productivity with fast print speeds of up to 35mm/sec

Produce labels from a PC or mobile iOS™ and Android™ devices

Recommended tapes

Black on white or yellow

Glossy white or yellow surface printed with black text. Ideal for shipping files.

Available from 6mm to 36mm widths

Black on red pastel

Pastel red with black text - a more subtle option. Ideal for customer files.

Available from 6mm to 36mm widths

Black on matte silver

Matte Silver tape with black text that's designed for scanning purposes.

Available in 12mm and 18mm widths

Labels designed to last

Epson LabelWorks tapes are designed to last, fully tested for durability. Up to 9 metres of tape per cartridge and smaller margins mean more labels for your money.
