

LABELWORKS FOR HEALTHCARE

Whatever your labelling needs are, LabelWorks label makers and their supplies make organisation easy and increase your efficiency.

Keeping patients safe is the highest priority in any healthcare environment. So it's important for everything to be clearly labelled — from medical files and patient/staff information to workware and laboratory equipment.

Not only does clear labelling prevent dangerous mistakes and mix-ups, it also makes life easier for medical and administrative staff; being able to correctly identify equipment or files at a glance saves valuable time and effort.

Whether healthcare staff need to label on the move in labs and wards or at the admission desk for administrative tasks, you'll find a LabelWorks label maker to fit the job.

A wide range of labels in different colours, sizes and finishes are available to match every healthcare task. For labs and pharmacies, transparent labels provide discreet labelling for test tubes and specimen jars, and matte labels enable test results to be written directly onto them with a pen or pencil. Warning labels, medicine labels and lab equipment labels can be easily created in seconds, along with stickers for patient charts and records. The label makers can also print labels with barcodes to enable links to more sensitive information. All Epson labels are resistant to abrasion and extreme temperatures, ensuring patient safety at all times.

More time to focus on patients

- Get jobs done quickly with a print speed of up to 35mm/sec
- Faster tape changes thanks to simple top-loading tape feed
- Easy for anyone to use, with front operation and automatic cutter
- Choose from existing label templates or create custom designs

Helps budgets go further

- Save money with the longest tape length on the market
- Change tapes less often thanks to smaller print margins

LabelWorks LW-600P for custom healthcare labels up to 24mm wide

Easily create, save and recall label designs, including barcodes

Enjoy better value for money with longer tapes and smaller label margins

Improve productivity with a print speed of up to 15mm/sec

Create and print labels from a PC or mobile iOS™ and Android™ devices

Use on a desktop with included AC adapter or on the move with batteries

Share with multiple users without a network using Bluetooth connectivity

Operate easily with front facing controls and top-loading tape feed

Includes one nine-metre tape (black on white standard tape, 24mm)

Recommended tapes

Black on white or yellow
Glossy white or yellow surface printed with black text. Ideal for medical files and equipment identification.
Available from 6mm to 24mm widths

Black on transparent
Transparent surface printed with black text. Ideal for lab samples or more discreet labelling. White on transparent also available.
Available from 6mm to 24mm widths

Black on white matte paper
Matte white surface printed with black text. Ideal for testing purposes or maintenance.
Available in 12mm width

Labels designed to last
Epson LabelWorks tapes are designed to last, fully tested for durability. Up to 9 metres of tape per cartridge and smaller margins mean more labels for your money.
